

Village of Mount Prospect **Press Release**

JAWA to Repair Water Main Leak Monday, March 24

DATE: March 19, 2025
CONTACT: Casey Botterman, Water/Sewer Superintendent
cbotterman@mountprospect.org, 847-870-5640

On Monday, March 24, 2025, the Village of Mount Prospect's water supplier, the Northwest Suburban Joint Action Water Agency (NSMJAWA), will be conducting repairs on a leak in their 90-inch transmission water main located near Elmhurst Road, just south of the tollway.

During the repair, the Village will temporarily switch to its new water interconnect with the Northwest Water Commission to ensure uninterrupted service. Village water customers will not experience any disruption to their water supply or changes in water quality.

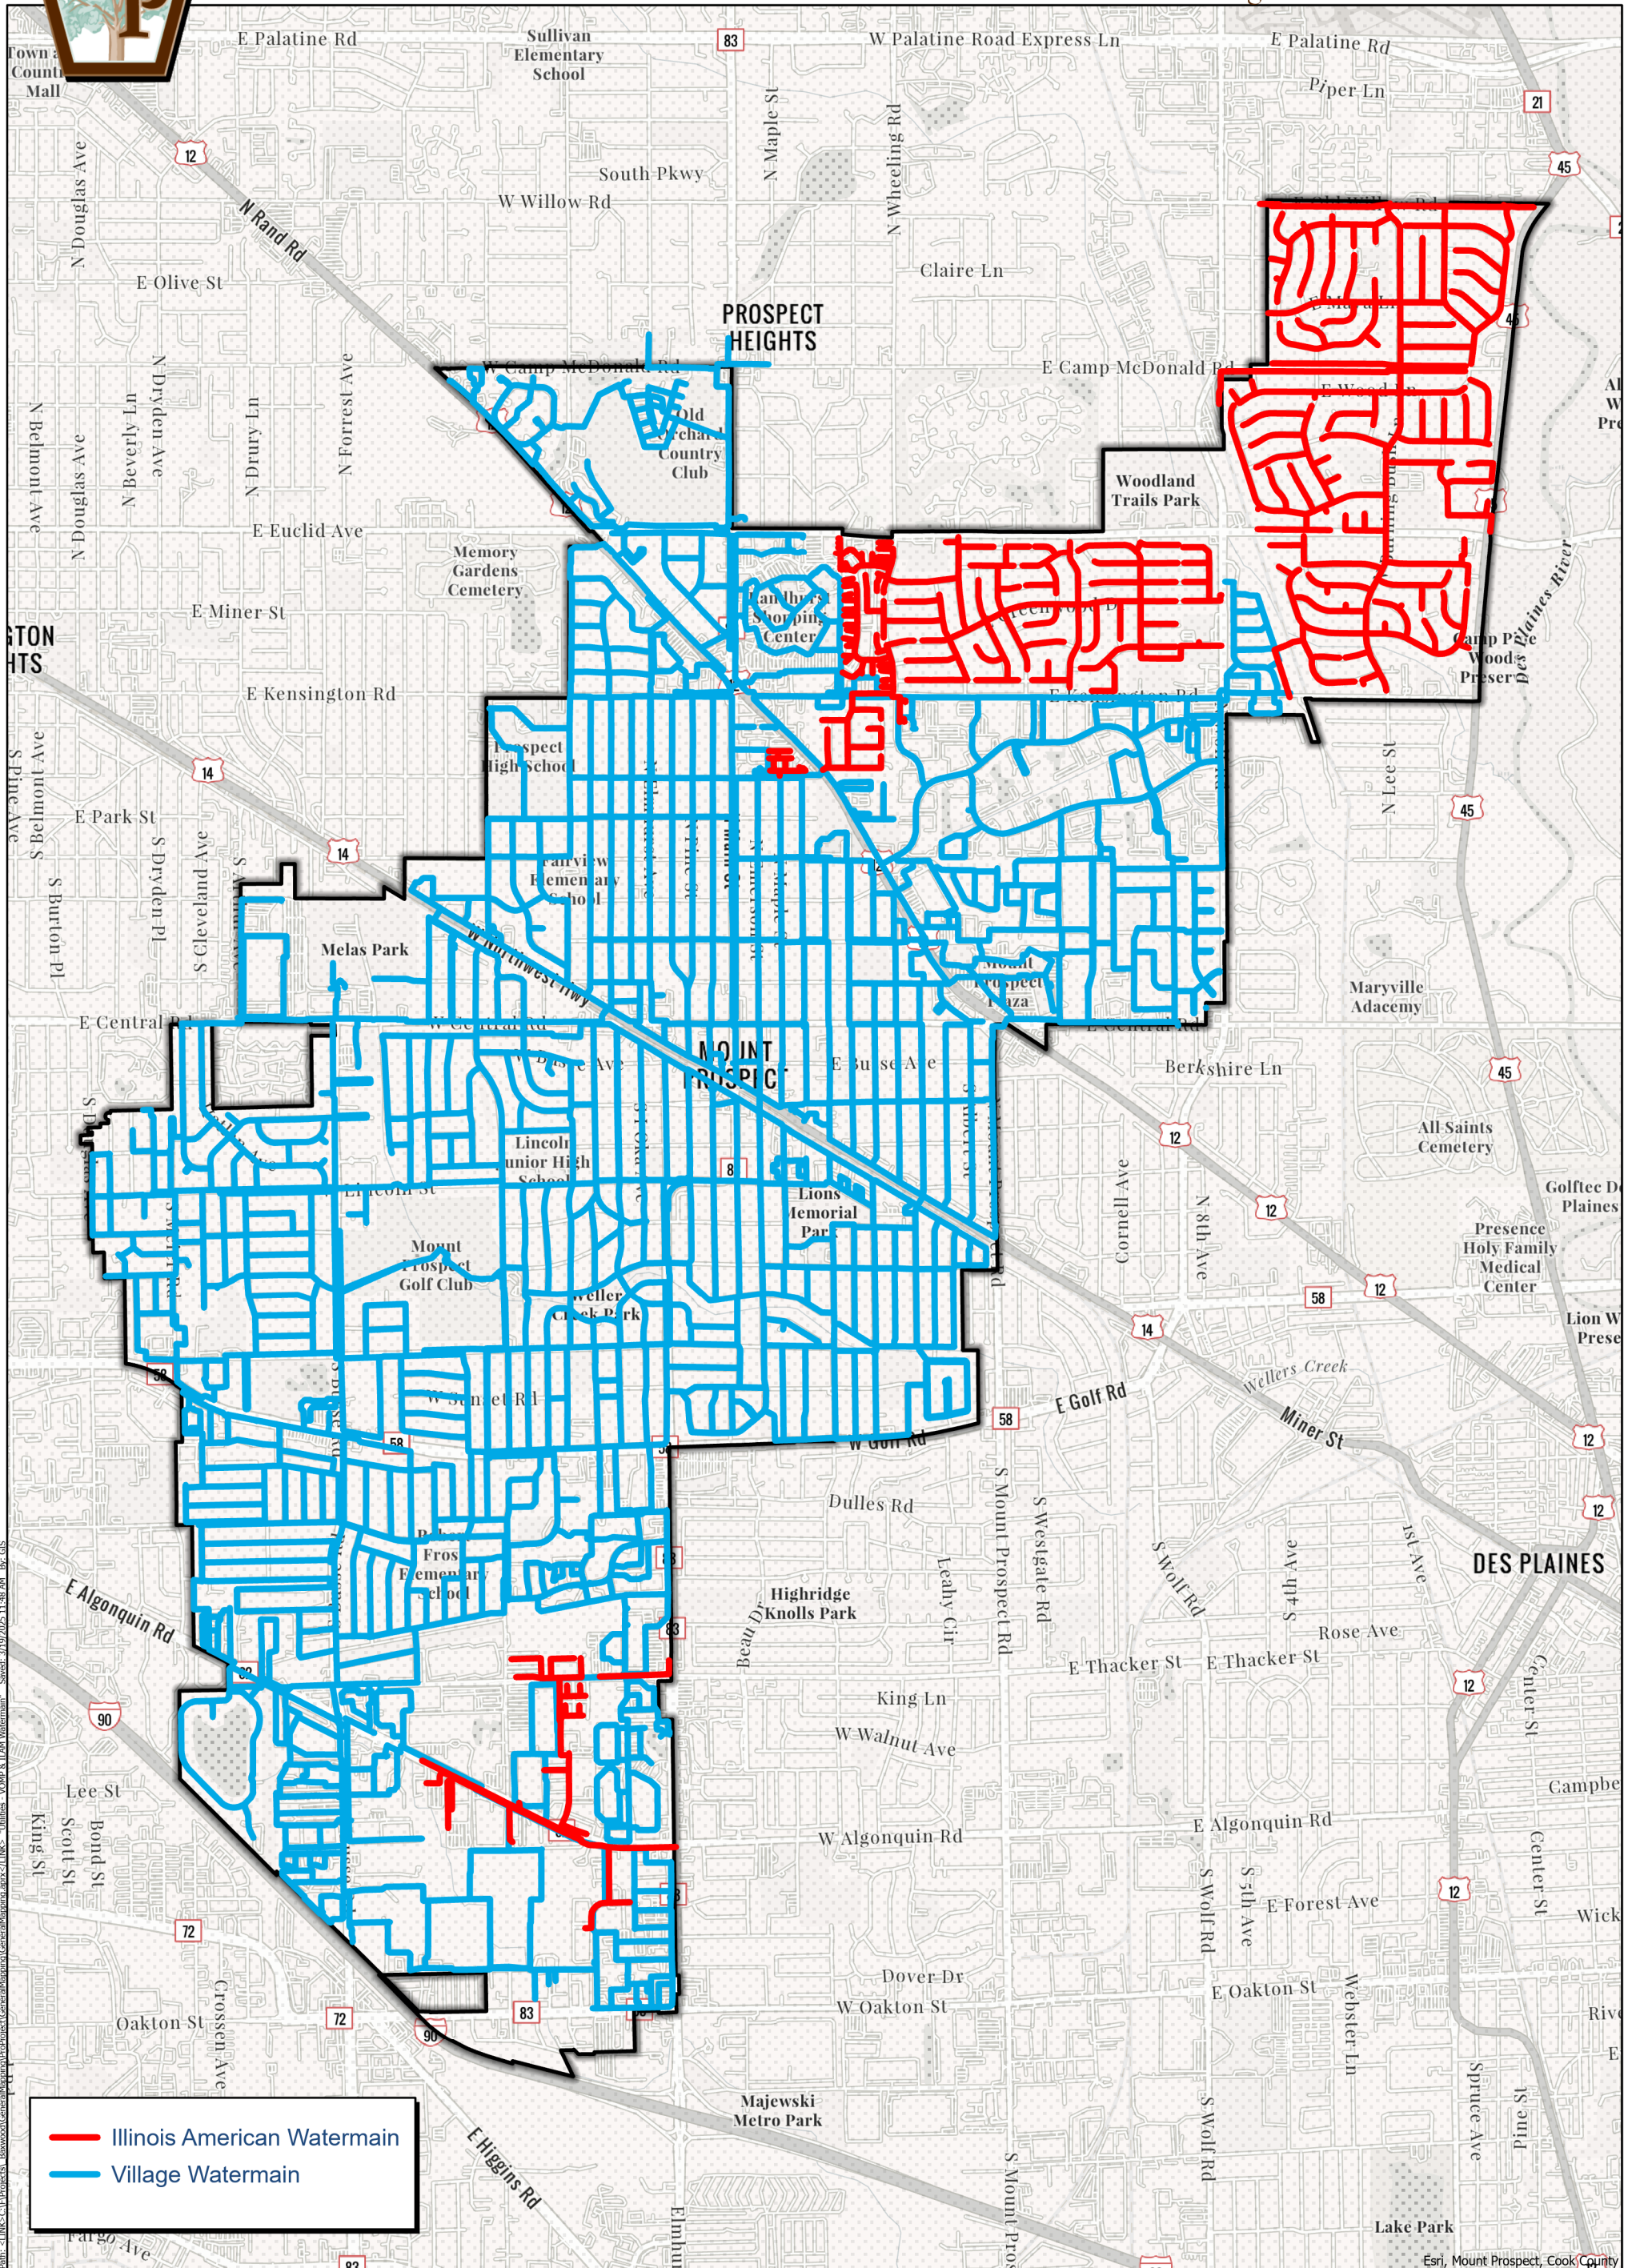

Mount Prospect residents and businesses served by Illinois American Water (IAW) will not be affected by this repair.

We will continue to monitor the situation closely and provide updates as new information becomes available. Thank you for your patience and understanding as this essential maintenance is completed.
