Mount Prospect Fire Department Responds to Fire at Oasis Manufactured Home

DATE: January 12, 2026
CONTACT: Fire Chief Tom Wang
847-870-5660

Mount Prospect, IL – On Sunday, January 11, 2026, at approximately 3:24pm, the Mount Prospect Fire Department responded to a manufactured home fire at the Oasis Manufactured Home Park along Eisenhower Road. Engine 11 arrived on scene and encountered a fully engulfed manufactured home, with flames impinging on a neighboring residence. Firefighters immediately initiated operations to protect the exposed home, then proceeded to extinguish the fire in the originating structure. Their quick actions prevented the second home from being fully involved.

The fire remains under investigation but is believed to be accidental in nature. No injuries were reported to residents or firefighters. Damage is estimated at approximately \$100,000.

The Mount Prospect Fire Department was assisted on scene by the Elk Grove Village Fire Department, with the Arlington Heights Fire Department and Prospect Heights Fire Department providing change-of-quarters coverage.

“If it were not for the quick actions of the initial arriving engine company, this incident would have resulted in a total loss of a second manufactured home,” said Fire Chief Tom Wang. “This fire also underscores the importance of having working smoke detectors, which provide early warning and give occupants valuable time to escape.”

The Mount Prospect Fire Department encourages residents to have properly placed and working smoke detectors. For more information on fire safety in the home, residents are encouraged to contact the Mount Prospect Fire Prevention Bureau at 847-818-5253.
