SUBJECT: Submit Public Comments for Chicago Executive Airport Master Plan
Update by December 19

Chicago Executive Airport, located in Wheeling, Illinois, is undertaking an update of its Airport Master Plan and Airport Layout Plan. The Master Plan Update is a proactive document which identifies the plans for future facility needs well in advance of the actual need for the facilities. Much like a community comprehensive plan, this is done to ensure that CEA can coordinate project approvals, design, financing, and construction to avoid facing unfavorable effects due to insufficient facilities.

Mount Prospect residents wishing to provide feedback on the CEA Master Plan are encouraged to submit written comments through the U.S. mail (addressed to: Jamie Abbott, CEA Executive Director, 1020 S. Plant Road, Wheeling, IL 60090), or via the project website at chiexec.com/cea-master-plan/contact-us/. All comments received by December 19, 2018 will be summarized within the Public Open House record. Materials are available at chiexec.com/cea-master-plan/, including the plan document and other supporting materials.
