

**MOUNT PROSPECT FIRE DEPARTMENT**  
**ANNUAL REPORT 2018**

## MESSAGE FROM CHIEF LAMBEL

The Mount Prospect Fire Department and all of its members would like to thank you for your interest in the 2018 annual review of our entire organization. The administration creates and provides an annual review of the department and its accomplishments of the previous year. The Fire Department places a high value in citizen and community involvement through communication and education. Interaction with residents and the business community provide the Department with the information we need to improve our service delivery. This annual report is just one of the ways we can look back at our successes. We hope that you find the provided information interesting, informative and beneficial. We welcome any and all feedback from our citizens through correspondence, phone calls, and community interactions.

On September 29, 1913 community leaders formed the Mount Prospect Fire Department to protect its citizens from structure fires. Although fire protection is still a significant part of service, the majority of our calls today are requests for Emergency Medical Service (EMS). To improve the effectiveness of service, the Fire Department accomplished some major initiatives in 2018. The Village has significantly changed since 1913 and the current location of the Fire Department headquarters is not located in the most efficient and effective area to serve the northern portion of the community. With the help of the Illinois Fire Chiefs Association, we completed a station location analysis of the downtown station location. Based on four years of call data, we concluded

that by moving the station just north of the downtown area, we could greatly improve our response times to the north. In June of 2018, the Village purchased the MB Bank building at 111 East Rand Road. This building will be utilized as an adaptive reuse to replace the fire headquarters building which is currently located at 112 East Northwest Highway.

With the retirement of four firefighters in 2018, the Department added four probationary firefighters to the Fire Department family. These four firefighters were certified to the level of Basic Firefighter and Certified and Licensed to the level of Emergency Medical Technician paramedic. One firefighter will complete his Paramedic training in early 2019. At that time, all operational staff will be Paramedic Certified and Licensed. The Fire Department was also able to fill a gap in the Training Division. With the retirement of our Training Officer in early 2018, we began a nationwide search for a replacement. In April of 2018, we were able to swear-in our new Battalion Chief of Training Tim Cassidy. Tim brings a vast amount of experience as a firefighter and training officer.

Training continues to be one of our highest priorities. Each of our firefighters and officers completed over 450 training hours in EMS and Firefighting. In addition, we completed 35 certifications in courses overseen by the Office of the State Fire Marshal. One of the most noteworthy was the Chief Fire Officer course completion and certification attained by Deputy Chief John Dolan. The Chief Fire Officer is the

highest Office of the State Fire Marshal certification that can be obtained in the State of Illinois. Course completion takes over one year to complete.

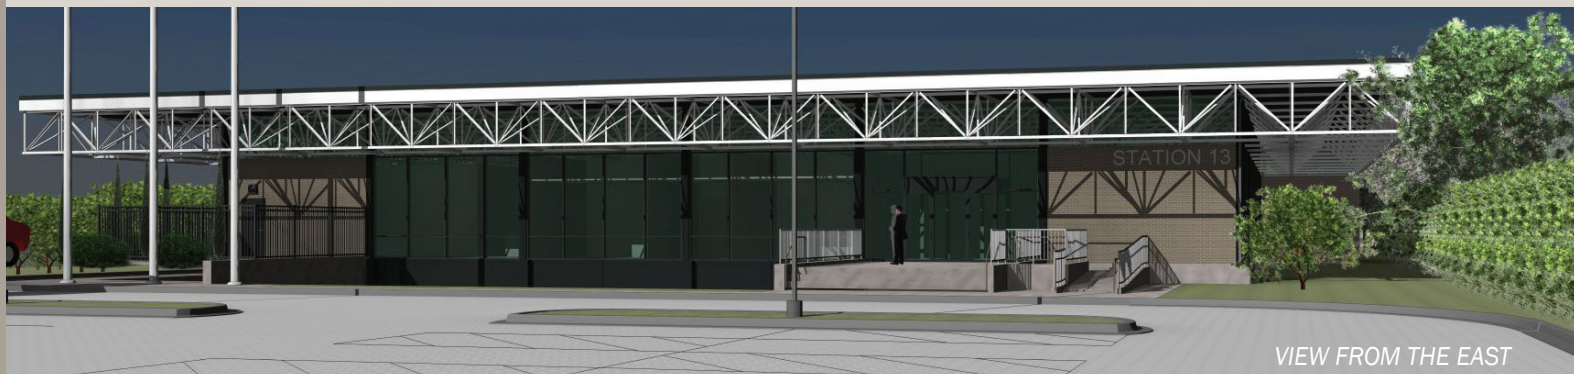

I am proud to be the leader of our professional organization, and it is a pleasure to serve the citizens of Mount Prospect. I recognize the success of any organization is made possible through support from those with a vested interest. I wish to thank Mayor Juracek, the Village Trustees, Village Manager Michael Cassady, and the Mount Prospect residents for their support of the Fire Department throughout the years. I also want to thank the Firefighters and Administrative staff for their hard work and dedication in providing the best service to our community. It is with this continuous support and encouragement, that we are able to call our Fire Department the best in the suburbs.

Please do not hesitate to contact us with any concerns, questions, comments, or thoughts. Our Administrative Office is open Monday through Friday from 8:30 a.m. - 5 p.m., and we can be reached at 847/870-5660.

A handwritten signature in black ink, appearing to read 'Brian Lambel'.

**Brian Lambel**  
Fire Chief

After reviewing the analysis provided by the Illinois Fire Chiefs Association, we were able to determine the building located at 111 E. Rand Road was the optimal location for our new Fire Station. The following highlights the major contributing factors:

- Provides quicker access through the district
  - Least disturbing to neighbors
- Increased the number of incidents with less than a 4 minute travel time from 85% to 97%

# 2018 Accomplishments & Statistics

- Administered both a Lieutenant Promotional Exam and New Firefighter Exam.
- Revised the Village of Mount Prospect Emergency Operational Plan.
- Fulfilled the Illinois Heart Rescue Grant by providing Hands-Only CPR and AED Training to over 1,000 people in our community.
- Completed a fire station location study in collaboration with the Illinois Fire Chiefs Association.
- Completed a commercial building risk assessment to identify areas of improvement which will assist in working towards Accreditation and ISO pre-planning requirements.
- Continued to review and restructure all Standard Operating Guidelines, Directives, Procedures and Policies.
- Developed a comprehensive plan for station locations, including apparatus placement and manning, to provide an effective and efficient all-hazards response.
- Developed the long and short term goals for increasing support in the southern part of the Village.
- Implemented new multi-lingual Public Education programs that were incorporated with our partners at the Community Connections Center.
- Conducted Citizen Emergency Preparedness Training.

## MISSION STATEMENT

To protect people, property, and the environment by reducing and controlling fire loss, providing emergency medical service, maintaining adequate emergency preparedness and engaging in fire prevention and public education activities.

## CORE VALUES

### PROFESSIONALISM

We do all we can to ensure we deliver the best possible service to our internal and external customers/communities through smart, well trained, humble, dedicated, competent, hard-working and safe members. We are active participants in the communities where we live and work.

### INTEGRITY AND HONESTY

We value the public's trust and are committed to honest and ethical behavior. We hold ourselves accountable to these values. We believe in a personal commitment to the organization and the community. Self-discipline is the foundation for managing behavior.

### HONOR AND RESPECT

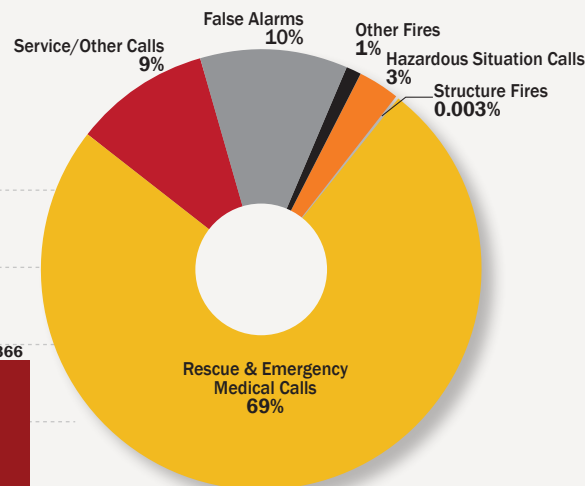

We are a Fire Department family. We are committed and accountable to each other because our lives depend on it. We value the role each member plays in our organization. We respect those that came before us and will strive to make the organization better for those who follow.

### EMBRACE DIVERSITY

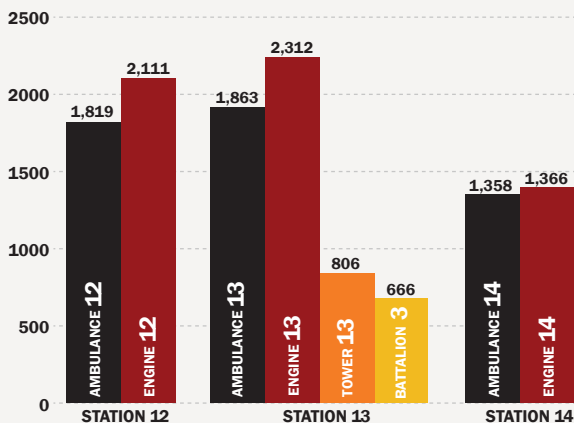

Recognizing the value of diversity helps us to work together as a team to serve our community. We are dedicated to reflecting and respecting diversity throughout our organization.

## CALLS FOR SERVICE BY STATION & VEHICLE

**6,079** Total Incident Responses

**12,301** Total Vehicle Responses

## 2019 GOALS

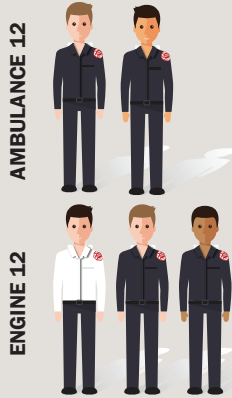

- Complete Emergency Management Training for the Village.
- Implement new Computer Aided Dispatch (CAD) for the Fire Department.
- Finalize design and start construction for new Fire Station 13.
- Implement PulsePoint CPR software for the general public.
- Implement the use of Fire Department shift personnel as part time Fire Inspectors.
- Implement new fire station alerting system.
- Complete and finalize all Standard Operating Guidelines, Directives, Procedures and Policies.
- Implement new records management system for the Fire Department.
- Finalize agreements for fire service for the South areas of Mount Prospect.
- Replace the Fire Department's fire safety trailer and incorporate into educational programs.
- Re-establish a working relationship with School District 214 to explore Mount Prospect Fire Cadet Program.

# OPERATIONS

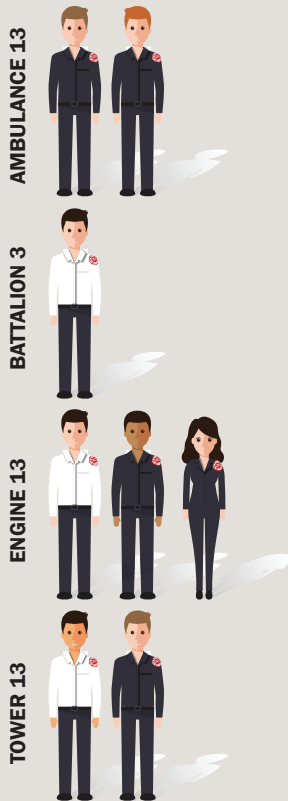

## 18 MINIMUM DAILY STAFFING

### APPARATUS & STAFFING

#### STATION 12 1601 W. GOLF RD.

#### STATION 13 (HQ) 112 E. NORTHWEST HWY.

#### STATION 14 2000 E. KENSINGTON RD.

# TRAINING

The Fire Department training plan is a dynamic, evolving strategy that is done with consideration to a wide spectrum of risks to the public and to its firefighters. Our goal is to provide a shared vision among members of the Fire Department through a support system of essential updated knowledge, skills, abilities and discipline. Within that supportive framework, firefighters have the freedom and discretion to do the right thing, in the best public interest, during emergency events which can be unpredictable and changing at a rapid pace. We are dedicated to preparing Mount Prospect Firefighters for excellent performance under physically and psychologically demanding conditions.

2018 offered many high impact training opportunities. There is an aggressive training schedule driven in part by compliance with overlapping regulations and standards. Various agencies require minimum amounts of training on a wide range of subjects. Fire Department Training Officers must satisfy the requirements and strive to meet the compliance standards of the following agencies to name a few:

Occupational Health & Safety Administration and  
Illinois Department of Labor (OSHA/IDOL)

Manufacturer recommendations for medical, fire equipment

Illinois Office of the State Fire Marshal (OSFM)

Intergovernmental Risk Management Agency (IRMA)

Illinois Department of Public Health (IDPH)

Illinois Mutual Aid Box Alarm System (MABAS)

Illinois Secretary of State

Mount Prospect local policies and procedures

National Fire Protection Association (NFPA)

Insurance Services Office (ISO)

Federal Emergency Management Agency (FEMA)

State and Federal Employment Laws

## 2018 FIRE DEPARTMENT TRAINING ACTIVITIES INCLUDED:

- Mayday and firefighter rescue from basement of acquired structure, with firefighter CPR
- Multiple essential firefighter skills at acquired structure including hose, ladders, search & rescue
- Orientation for new Battalion Chief of Training & Safety
- Academy and orientation for 4 new firefighters
- Fire officer development
- Integrated training activities with various other Village departments including the Water and Sewer Division, Human Services, Police and Vehicle Maintenance
- Table top scenario with Shell Oil, Illinois Emergency Management, Metropolitan Water Reclamation and Police Department
- Paid-On-Call Firefighter training at acquired structures and at NIPSTA (fire academy)
- In-Service training with new fire engine on specific operation of unique, new features
- Lectures on firefighter behavioral health and high psychological performance
- Firefighter cancer awareness and prevention
- ATV/Gator operator safety course
- Public Safety Building Emergency Action Plan Drill
- Multiple jurisdiction live fire training with rescue techniques and focus on communication
- Pre-incident planning walk through at various properties
- In-service training for new Self Contained Breathing Apparatus per standards

# EMERGENCY MEDICAL SERVICES

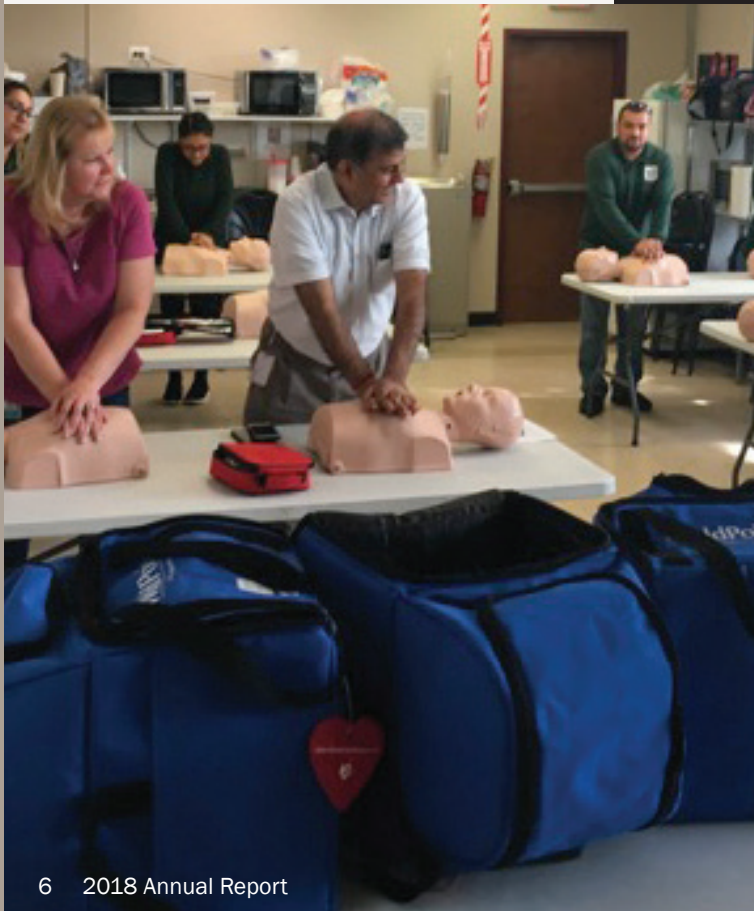

The emergency medical personnel from the Mount Prospect Fire Department responded to 4,189 EMS-related incidents in 2018. This represents 69% of all responses performed by the Fire Department. These incidents include, but are not limited to, medical problems that may or may not include a cardiac event, trauma, as well as a myriad of other potentially life-threatening emergencies. EMS remains an integral portion of the Fire Department as well as the community at-large. The following provides some of the highlights in Emergency Medical Services over the past year:

- In 2018, the department completed 2,651 hours of continuing education which is an average of 38.4 continuing education hours per paramedic.
- 16 paramedics were relicensed for their 4 year licensure period.
- Four new hires passed system entry for Northwest Community EMS System and are now able to practice within our system.
- One new member passed paramedic school and is now licensed at the National and State levels.
- The King Vision Intubation System that was introduced at the end of 2017, was placed into service on all ambulances. This video laryngoscope is designed to enable quick and easy intubation using a display that provides a consistent clear view of the patient's airway.

*This new ambulance was put into service in January of 2018 as part of our vehicle replacement program.*

- “Your men were wonderful, very friendly and professional”.
- “All the personnel are very kind and considerate. They are the best”!
- “The EMS team was great. They were kind, caring and compassionate”.
- “Kind, caring, sincere”
- “Well trained, confident, professional, friendly, reassuring”
- “Great service, timely, compassionate, sense of urgency”
- “Received outstanding service from the Mount Prospect Fire Department team”

## HANDS-ONLY CPR

The Mount Prospect Fire Department received a Community Action Grant award in 2017 from Illinois Heart Rescue to assist with CPR training efforts. As part of the grant, the Fire Department received 8 CPR training kits/mannequins.

In 2018, the Fire Department utilized the training kits to teach Hands-Only CPR to 401 junior high/middle school students, 446 employees at local businesses, and 282 people at public events such as the Fire Department's Open House. The grant requirements have been satisfied and the Fire Department will continue Hands-Only CPR training as part of its public education efforts.

The Illinois Heart Rescue Project aims to improve how Sudden Cardiac Arrest (SCA) is recognized, treated and measured in the United States. Hands-Only CPR has been documented to dramatically improve survival rates for victims of “out of hospital” cardiac arrest. According to a study published in the New England Journal of Medicine, for every minute that a victim of SCA does not receive CPR, their chance of death increases by 10%. That means if no CPR is performed within 10 minutes, the victim has a 0% chance of living. The sooner CPR is performed, the more likely the victim will survive and return to their life with full mental functioning.

For questions about the Hands-Only CPR training program or to schedule a training session, please call the Fire Prevention Bureau at 847-818-5253.

# EMERGENCY MANAGEMENT

A very unique department within the Village and Fire Department is the department of Emergency Management. Before, during and after a disaster strikes, whether natural or man-made, emergency management has an active part working in conjunction with all other departments and the Village Board to provide plans and procedures. Emergency Management also oversees the volunteer organization, CERT, Community Emergency Response Team, made up of local residents who are

trained to assist the Village in planned and unplanned events. This year was an extremely busy year for Emergency Management and there were many accomplishments:

- The Village Emergency Operation Plan was completed and fully updated to meet the needs of Cook County and the State Emergency Management Agency.
- Established a list of potential “shelters” that will be utilized in the event of any time that will require the temporary relief for residents.
- Many Incident Action Plans were developed for Village special events to provide a safety plan for all departments to follow during the event.
- Emergency Management Staff completed and were awarded the Illinois Emergency Management Agency Professional Development Series Certificate. This certification included many hours of classroom and hands on demonstration.
- The installation of an Emergency Management back up radio communication system was put in place and has been very useful with expanding the radio communications throughout the Village.
- Taught a Citizen Emergency Preparedness Training class which was attended by nineteen area residents who received both classroom and hands-on training on how to prepare and handle disasters.
- Created and published a multilingual emergency preparedness document folder for public education uses.
- Provided a public education display at the Mount Prospect Library featuring National Preparedness month.
- Created seasonal inserts for the twelve Village Information Boxes regarding preparedness and safety times. This information is also posted on the Village’s website.
- Provided emergency first aid kits for the Village’s Emergency Operation Center and Community Room.
- Reviewed and revised the Emergency Preparedness section of the Village’s website.
- Reviewed and revised the employee NIMS, National Incident Management System, standard with 100% compliance expected by spring of 2019.

## UNION LOCAL 4119

- Four new members were welcomed into the union over the course of the year.
- In April, Local 4119 held a booth at Irish Fest and raised over \$1000 for Cystic Fibrosis.
- Local 4119 donated \$1000 to the California Wild Fire Relief Fund aiding firefighters who lost their homes while battling the fires across the state.
- In July and August, Local 4119 raised over \$8,000 during our annual “Fill the Boot” campaign in support of the Muscular Dystrophy Association.
- In December, Local 4119 members along with assistance from the Village of Mount Prospect, organized and held the 21st Annual Toy Drive for the children of Mount Prospect at Station 14.
- Also in December, Members participated in the gauntlet run for Operation North Pole in support of those families who have a child battling a life-threatening/terminal illness.

# FIRE PREVENTION

The Mount Prospect Fire Prevention Bureau had an exciting and busy year in 2018. Annual fire inspections increased and additional annexation properties were added to the community. In addition to the daily responsibilities of the Fire Prevention Bureau, the members organized the Department's Children's Fire Safety Roadshow, Open House and Fire Prevention Poster Contest – all successful programs with a wonderful turnout!

## FIRE SAFETY MESSAGE (FIRE PREVENTION WEEK)

Each year, the Mount Prospect Fire Department teams up with the National Fire Protection Association (NFPA) for Fire Prevention Week to spread fire safety awareness to our youth. The 2018 fire safety message was: "Look. Listen. Learn. Be aware. Fire can happen anywhere." In a fire, seconds can mean the difference between residents of our community escaping safely from a fire or having their lives end in tragedy.

This year's Fire Prevention Week campaign worked to educate about three basic but essential steps to take to reduce the likelihood of having a fire – and how to escape safely in the event of one:

**LOOK** for places fire could start. Take a good look around your home. Identify potential fire hazards and take care of them.

**LISTEN** for the sound of the smoke alarm. You could have only minutes to escape safely once the smoke alarm sounds. Go to your outside meeting place, which should be a safe distance from the home and where everyone should meet.

**LEARN** two ways out of every room and make sure all doors and windows leading outside open easily and are free of clutter.

The Fire Prevention Week safety message was presented at the annual Open House and was in conjunction with the Fire Department's annual Poster Contest. The contest is for students in Kindergarten through 5th grade and it encourages students to design a poster based on the fire safety message. Winners were recognized in front of the Village Board at the November 13th Committee of the Whole meeting.

**LOOK. LISTEN. LEARN.**  
Be aware.  
Fire can happen anywhere.  
FIRE PREVENTION WEEK: OCTOBER 7-13, 2018  
firepreventionweek.org

# COMMUNITY SUPPORTED GROUPS

## PAID-ON-CALL FIREFIGHTERS

The Mount Prospect Fire Department began as a Volunteer organization on September 29, 1913. In 1961, the Village Board voted to make the Department full-time, but “supplemented by ‘paid on call’ (volunteer) firemen as needed”. To this day, 11 Paid-On-Call (POC) firefighters, 10 of whom are Mount Prospect residents, continue the legacy of the Mount Prospect Volunteer Fire Department. The POC firefighters attend two hours of weekly training on Thursday nights and are ‘on call’ 24 hours a day, 365 days a year, to provide assistance to the Fire Department and Village when requested. The POC’s provide extra support for structure fires, storm damage, power outages, flooding, and other community incidents. In 2018, the Paid-On-Call firefighters completed over 575 hours of training, 200 hours of unpaid ‘ride time’ and responded to 9 callbacks for emergency assistance. In addition to training and emergency response, the POC’s were very involved with the community and public education by participating in events such as: Fire safety education for children, 4th of July Parade, Operation North Pole, local school events, Fire Department Open House, food drives, senior events, Randhurst Street Fest and Toys for Kids.

## BOARD OF FIRE AND POLICE COMMISSIONERS

In Mount Prospect, as in many communities across the nation, hiring firefighters is the responsibility of the Board of Fire and Police Commissioners (BOFPC), not the Fire Department. Commissioners are residents of Mount Prospect who volunteer their time to oversee the testing process and interview potential candidates. In 2018, the BOFPC interviewed 23 potential firefighter candidates and swore in 4 new firefighters. Current Commission members are James Powers (Chairperson), Mark W. Busse, Rockne Bork, Jeanna Claussen and William Knee.

## COMMUNITY EMERGENCY RESPONSE TEAM

Members of Mount Prospect’s Community Emergency Response Team (CERT) contributed over 3,300 hours of volunteer time to the community in both planned events and emergency calls. CERT is made up of resident volunteers trained to “aid and assist Mount Prospect Village departments when professional emergency resources become overwhelmed.” In 2018, the Team participated in several types of training including search and rescue procedures, a review of fire extinguishers, electric and utility safety, and traffic control. Team members assisted with some of the larger fire incidents that occurred this year by helping the victims after the incident. CERT members also assisted Village staff at community events such as the Fire Department Open House, food drive and toy program, Police Department’s National Night Out and their 5K Run, Family Bike Ride, Celebration of Cultures and Fourth of July parade and fireworks. The annual Preparedness Training was a successful program and many CERT members assisted this year with teaching parts of the class.

# COMMUNITY SUPPORTED ACTIVITIES

## ST. BALDRICK'S FUNDRAISER AT BLACKFINN

In March, firefighters shaved their heads to raise money for childhood cancer. The department raised \$20,000!

## COMMUNITY FOOD DRIVE AT RANDHURST VILLAGE

The Fire Department and Union Local 4119 sponsored a community food drive for the sixth year in a row on October 15. Fire Department employees accepted donations at the Randhurst Village Costco to help fill the Village's Emergency Food Pantry for the upcoming holiday season. When all was said and done, the Department collected enough food to provide 720 bags of groceries to low income residents in November and December.

## "FILL THE BOOT" MDA FUNDRAISER

All three shifts participated in the Annual fundraiser and collected over \$6,000.

## TOYS FOR KIDS PROGRAM

In November and December, the Fire Department accepted donations of toys and gift cards from the community for Mount Prospect's annual Toys for Kids program. On December 15, members of the Fire and Human Services Departments invited 350 underprivileged children, from 125 families to Fire Station 14 to pick-up their toys and visit with Santa Claus.

# FREQUENTLY ASKED QUESTIONS

### Q: Does the Fire Department offer CPR classes?

A: Yes! The Fire Department offers American Heart Association Healthcare Provider and Heartsaver CPR classes throughout the year. All classes cover recognition and emergency resuscitation techniques for heart attack, cardiac arrest, stroke and airway obstruction on adults, children and infants. Classes also demonstrate the use of an automatic external defibrillator (AED). For more information about CPR classes, visit [mountprospect.org/cpr](http://mountprospect.org/cpr).

### Q: What is a Knox Box?

A: A Knox Box is a small, wall-mounted safe that holds a building's keys so that the Fire Department can gain access in emergency situations. Knox Boxes allow firefighters immediate entry into homes and businesses without forced entry damage or delay. Knox Boxes are usually mounted at the front door/entrance to a building, where the Fire Department can open them with a master key specific to Mount Prospect.

### Q: How do I get a copy of an ambulance report?

A: The Fire Department's ambulance reports/medical records are processed and stored with the Northwest Community Emergency Medical Services System (NWCEMSS), located at 901 Kirchoff Road in Arlington Heights. To obtain a copy of an ambulance report/medical record, contact the NWCEMSS at (847) 618-4480.

### Q: What do inspectors typically look for during an annual fire inspection?

A: In general, inspectors are looking for any fire or life safety issues that may make the building unsafe for residents, occupants and/or employees. Inspectors look to make sure the building is properly addressed, that emergency lights and exit signage are working and that the correct number and type of fire extinguishers are present. Ensuring that all exits and utility rooms are clear and that a building's fire alarm and/or fire suppression system has been properly tested and maintained are also part of an annual fire inspection. For more information, visit [mountprospect.org/fire](http://mountprospect.org/fire) or call the Fire Prevention Bureau at (847) 818-5253.

*This new engine was put into service in June of 2018 as part of our vehicle replacement program.*

## NORTHWEST CENTRAL DISPATCH SYSTEM

Northwest Central Dispatch System (NWCDS) is an intergovernmental consolidated emergency dispatch system, providing 9-1-1 services for several communities in northwest suburban Chicago. The combined population of the communities is nearly 500,000 covering over 170 square miles.

The state of the art center handles an average of 1,677 telephone calls per day and dispatches approximately 246,000 calls for service annually. The center is staffed by Public Safety Telecommunicators who have completed a comprehensive training program and participate in ongoing continuing education.

The Mount Prospect Fire Department is proud to be a part of Northwest Central Dispatch System and would like to highlight some of their achievements:

- NWCDS is only one of thirty-two emergency dispatch centers in the world to be accredited with Emergency Medical Dispatch (EMD) and Emergency Fire Dispatch (EFD through the International Academy of Emergency Dispatch.
- NWCDS holds Project 33 (P33) certification with the Association of Public Safety Communications Officials (APCO). APCO P33 validates that the NWCDS training and continuing education programs meet and exceed national standards for 9-1-1 training.
- NWCDS is partnered with the National Center for Missing and Exploited Children (NCMEC) for their Missing Kids Readiness Project.

## FREQUENTLY ASKED QUESTIONS

### WHY AM I ASKED SO MANY QUESTIONS?

Once a citizen is connected to 9-1-1, the Telecommunicator follows a standard set of questions. If the caller is requesting an ambulance or the fire department, protocols are used that are based on a system that is used by many centers worldwide. This is a state-of-the art emergency dispatch protocol that meets or exceeds all standards established by the US Department of Transportation and International Academies of Emergency Dispatch. It includes the following:

- What is the address of the emergency?
- What is the phone number you are calling from?
- Okay, tell me exactly what happened.
- What is your name and address?

The protocol also provides instructions to relay to the caller in life threatening situations, such as CPR or how to control bleeding.

### ARE THESE QUESTIONS DELAYING HELP BEING SENT?

No, the questions ensure the appropriate response is sent and provides critical information to the responders. Often police and/or fire/EMS department personnel are dispatched after obtaining the location & problem, and the call-taker will continue to ask questions or provide instructions while the responders are en route.
