June 26, 2020

The Honorable Arlene A. Juracek, Village President Members of the Board of Trustees Village Manager Michael J. Cassady, and Citizens of the Village of Mount Prospect, Illinois

The Comprehensive Annual Financial Report of the Village of Mount Prospect, Illinois for the fiscal year ended December 31, 2019 is submitted herewith. The report consists of management's representations concerning the finances of the Village of Mount Prospect. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Village.

To provide a reasonable basis for making these representations, management of the Village has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the Village of Mount Prospect's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the Village's comprehensive framework on internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. The Village has implemented GASB Statement No. 34, Basic Financial Statements – and Management Discussion and Analysis - for state and local governments, including infrastructure reporting. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Village's financial statements have been audited by Sikich LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Village of Mount Prospect for the year ended December 31, 2019, are free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon their audit that there was a reasonable basis for rendering an unmodified opinion that the Village's financial statements for the fiscal year ended December 31, 2019 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Village's MD&A can be found immediately following the report of the independent auditors.

Profile of the Village of Mount Prospect

The Village of Mount Prospect, a home rule community as defined by the Illinois Constitution, was incorporated February 3, 1917 and is located 22 miles northwest from downtown Chicago in Cook County. The Village currently has land area of 10.8 square miles and a population of 54,167 (2010 Census).

The Village operates under the Council/Manager form of government. Policymaking and legislative authority are vested in the Village Board, which consists of a Mayor and six-member Board of Trustees. The Village Board is responsible for, among other things, passing ordinances, adopting the budget, appointing committee members and hiring the Village Manager. The Village Manager is responsible for carrying out the policies and ordinances of the Village Board, for overseeing the day-to-day operations of the Village, and for appointing the heads of the Village's departments. The Board is elected on a non-partisan basis. Board members are elected to four-year staggered terms with three Board members elected every two years. The Mayor is elected to a four-year term. The Mayor and Village Trustees are elected at large. The Village provides a full range of services including police, fire, public works (including water and sewer), human services, finance, community development and communication (television) services.

The annual budget serves as the foundation for the Village's financial planning and control. All departments of the Village are required to submit their budget requests to the Finance Director by mid-July each year. Revenue estimates are completed by the Finance Department in preparation for departmental budget reviews with the Village Manager and Finance Director in early August. Initial budget requests are compiled by the end of August. A proposed budget is prepared and delivered to the Village Board and Finance Commission at the end of September. The proposed budget is also made available for public inspection in the Village Clerk's Office, on the Village website and at the Mount Prospect Public Library. A series of workshops are held with members of the Village Board and Finance Commission in October and November. The Finance Commission also meets separately with staff in October. The Village Board is required to hold a public hearing on the proposed budget and to adopt a final budget no later than December 31st of each year, the close of the Village's previous budget year. The budget is prepared by fund and by department. Expense cost centers are created within departments giving a true picture of the cost of providing a particular service (e.g., Police Department Investigations). Budget amendments require approval of the Village Board. Budget-to-actual comparisons are provided for each individual governmental fund for which an appropriated annual budget has been adopted.

For the General Corporate Fund and major special revenue funds, this comparison is presented in the required supplementary information. For governmental funds, other than the General Corporate Fund and major special revenue funds, with appropriated annual budgets, this comparison is presented in the combining and individual fund finance statements and schedules subsection of this report.

Major Initiatives

The Village staff, following directives of the Village Board and the Village Manager, has been involved in a variety of projects throughout the year; projects which reflect initiatives found in the Village's Strategic Plan and commitment to ensuring its citizens are able to live and work in an enviable environment. Below is a list of the more significant accomplishments that address various goals identified for 2019.

- Public Safety Building The construction of the new Police Headquarter at 799 Biermann Ct. and Fire
 Headquarter at 111 E. Rand Road was significantly completed during the year 2019. Both the facilities will
 be operating in early to mid-2020.
- Levee 37 Plan The Village successfully secured \$1,300,000 in grant funding for the construction of storm
 water detention and associated storm mainline pipe upsizing in the Newton subdivision tributary to the
 Des Plaines River. The project has been approved in FY 2019 and is expected to be completed in FY 2020.
- Maple Street Parking Deck The Village issued \$8.0 million bonds in 2019 for the development projects within the Prospect & Main TIF. \$7.0 million from the bond will be spent on the construction of Maple Street Parking Deck. The Parking deck will provide 268 spaces in the downtown area for commuters and retail use.
- **Sidewalk Policy & Program** The Village successfully implemented various strategies to repair the sidewalks and have mitigated over 2,000 vertical offsets in the Village's sidewalk network.
- Street Lights Program The Village completed the conversion of 80 streetlights to LED fixture reducing energy usage on Central Road.
- Busse Triangle Property Development & 10 N Main Development The development of 20 West and Park Terrace will bring 85 additional residential units in the downtown. The construction for 97 apartment units also began at 10 N Main in 2019. The Village is also about to acquire the properties for Phase II development of the Busse Triangle. The new acquisition will provide additional parking for increased retail activities.
- Traffic Control on Major Corridors The Village completed the Phase I engineering for Rand Road/Central Road/Mount Prospect Road intersection. The Village also started the Phase I engineering for Rand Road/Kensington Road/Route 83 intersection.
- Block 56 The Village worked towards developing Block 56 including the old Police and Fire Headquarters.
 A preferred developer is identified and the relocation of the Chase Bank from Block 56 is in process. If developed, the project will be the largest project in the downtown in the recent times, with more than 220 residential units and some retail.
- Business Attraction Strategy The Village implemented various business attraction strategies. To attract
 new restaurants, the Village approved a Gaming Ordinance in support of restaurateurs. As a part of the
 Village's branding strategy, the branding and marketing plan is being implemented.

Refer to the Strategic Plan tab of the 2020 Annual Budget document for a complete listing of major initiatives and accomplishments.

All Departments continue to perform extremely well in delivering high quality services to our residents and business community. Initiatives included in the Village's strategic plan have provided a focus for these services. The Village's Annual Budget and Audit Documents were again recognized for their clarity and usability and Mount Prospect was recognized as Tree City U.S.A. for the 35th consecutive year.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Village operates.

Local economy. The Village continues to benefit from growth in the local economy. There are a number of factors that influence the economy of a specific community, and various measures are used to gauge the economic outlook. Perhaps four of the most objective measures are the level of retail sales, the employment level of the community, income levels in the community and building activity. In Illinois, sales taxes are allocated based upon

the point-of-sale, and accordingly represent the sales in the community. Total state sales tax receipts received during the calendar year ended December 31, 2019 were \$22,930,474 compared to \$22,294,944 for the previous year, an increase of 2.85 percent. The increase from the prior year is normal and inflationary in nature. The Village has seen an extraordinary growth in the sales tax revenue in the recent years and has retained all the growth in 2019. Since the Village's portion of sales tax receipts is based on a 1% tax rate, these receipts represent total retail sales of approximately \$2.30 billion for 2019. Due to the outbreak of the COVID-19, the Village is expected to see a marginal revenue loss in the Sales Tax revenues. The segment generating the most sales tax contains products with inelastic demand, which protects the Village's sales tax revenue. The Village will continue its efforts in the area of economic development and is optimistic to recover from the economic losses in the fiscal year 2020 and 2021.

The fiscal year 2019 was also the year for the triennial assessment. The Village is divided mainly between Elk Grove Township and Wheeling Township, and there is a small portion of the Village is within the jurisdiction of the Maine Township. The triennial assessment in the Elk Grove Township has increased on an average by 53 percent, while the same has increased by 31 percent in the Wheeling Township. The increases in the assessed value will restore the equalized assessed value of the Village back to its 2008-2009 level and is expected to be more than \$2.0 billion (subject to equalization factor issued by the Cook County).

Mount Prospect's average unemployment during 2019 was 2.7%. This was a decrease from the prior year of 20 basis points (2.9% in 2018). The average unemployment rate for the State of Illinois for 2019 was decreased 30 basis points from the prior year coming in at 4.0%. The rate for the U.S. decreased 6 basis points from 3.93% to 3.87%. Mount Prospect's median family income, \$73,652 as of July 1, 2019 (per the census.gov data), was 19% higher than the median for Cook County (\$62,088) and 16% higher than the median for the State of Illinois (\$63,575).

In a suburban setting where it is often difficult to distinguish the boundaries of one community from a neighboring community, the economic activity of the "region" is a major influence on the economies of the individual communities. The Village of Mount Prospect is located on the eastern edge of the "Golden Corridor" which extends along Interstate 90 from O'Hare Airport to Elgin, a stretch of approximately 25 miles. Along this corridor can be found the corporate headquarters of such corporations as United Airlines, Siemens Medical Solutions, Omron, Mazak and Zurich North America. The corridor is also home to regional headquarters for such corporations as AT&T and Siemens. The Corridor will continue to grow, as thousands of acres remain available for development on its far western edge.

Long-term financial planning. In 2003, the Village conducted its first long-range financial planning workshop. The workshop was held in response to the slowing economy and its impact to the Village's financial condition. The goal of the workshop was to put the Village's financial condition back on firm ground in such a manner as to not overburden residents and businesses from a tax standpoint or reduce the scope and quality of municipal services that would jeopardize the livability and curb appeal of the community. The goal of the workshop was accomplished through a series of revenue enhancements, budget cuts and the planned drawdown of fund balance. Subsequent workshops continued into 2019. During the 2019 workshop, financial status reports were provided for end-of-year results for 2018, updated projections for 2019 and a revised forecast for 2020.

Two additional tools have been developed in managing the long-range finances of the Village. The first is a Five-Year Community Investment Program that outlines the major capital expenditure/project initiatives of the Village over the next five years and identifies funding sources. Over the next five years (2020-2024), the Village has identified \$134.5 million in water and sewer, flood control, street, public building, equipment and other miscellaneous capital projects. The second is the Village Strategic Plan for 2020 completed in early 2019. The

strategic plan provides the mission, vision, and goals for vision attainment along with the strategic action plan of the organization. An implementation guide was developed in October 2019 using the goals identified in the Strategic Plan. This implementation guide provides the objectives, short-term challenges and opportunities, and action items to be taken for accomplishing the goals of the Village. Action items were prioritized as top or high priority by the Village Board and fall into three categories; Policy Agenda, Management Agenda and Management in Progress. The implementation guide is updated annually reflecting work completed and changing priorities. Funding of initiatives identified in the strategic plan will receive a higher priority during the budget process.

Awards. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Mount Prospect for its comprehensive annual financial report for the year ended December 31, 2018. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report (CAFR) whose contents conform to program standards. Such CAFR must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The Village of Mount Prospect has received a Certificate of Achievement since 1983. It is believed that the current report continues to conform to the Certificate of Achievement program requirements, and will be submitted to GFOA for evaluation.

In addition, the Village of Mount Prospect also received the Government Finance Officers Association's Award for Distinguished Budget Presentation for its annual budget for the fiscal year beginning on January 1, 2019 and ending December 31, 2019. In order to qualify for the Distinguished Budget Presentation Award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device. The Village of Mount Prospect has received this award each year since 1994. The Village is awaiting word as to whether it received the Budget Award for its 2020 Budget document.

Acknowledgements

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire staff of the Finance Department. I would like to express special appreciation to Jennifer Fitzgerald, Asst. to the Finance Director, Accountants Nancy Warnock, Rumiana Nihtianova and Terri Atienza, and our AP and Risk Coordinator Mike Grochocki who contributed greatly to its preparation. Additionally, I would like to acknowledge the Mayor, the Board of Trustees, the Finance Commission and Village Manager for their leadership and support in planning and conducting the financial affairs of the Village in a responsible and progressive manner.

Respectfully submitted,

Amit R. Thakkan Amit Thakkar Finance Director

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor Members of the Board of Trustees Village of Mount Prospect, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Mount Prospect, Illinois (the Village) as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Mount Prospect, Illinois, as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

The Village adopted GASB Statement No. 83, Certain Asset Retirement Obligations, which established standards for measuring and recognizing liabilities, deferred outflows of resources, and expenses for asset retirement obligations; and modified certain disclosures in the notes to financial statements. The Village also adopted GASB Statement No. 84, Fiduciary Activities, which established standards for reporting fiduciary funds and modified certain disclosures in the notes to the financial statements. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, supplemental data, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section, supplemental data, and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 22, 2020, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor Members of the Board of Trustees Village of Mount Prospect, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Mount Prospect, Illinois (the Village), as of and for the year ended December 31, 2019, and the related notes to financial statements, which collectively comprise the Village's basic financial statements and have issued our report thereon dated June 22, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Village's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Village's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Sikich LLP

Naperville, Illinois June 22, 2020

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

MANAGEMENT'S DISCUSSION AND ANALYSIS

For Fiscal Year Ended December 31, 2019

The Village of Mount Prospect (the "Village") Management's Discussion and Analysis is designed to (1) assist the reader in focusing on significant issues, (2) provide an overview of the Village's financial activity, (3) identify changes in the Village's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Transmittal Letter (beginning on page iii), and the Village's financial statements (beginning on page 6).

USING THE FINANCIAL SECTION OF THIS COMPREHENSIVE ANNUAL FINANCIAL REPORT

The primary focus of local governmental financial statements had been to summarize fund type information on a current financial resource basis. This approach was modified by Governmental Accounting Standards Board (GASB) Statement No. 34. As a result, these financial statements now present two kinds of statements, each with a different snapshot of the Village's finances. The financial statement's focus under GASB Statement No. 34 is on both the Village as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the Village's accountability.

Government-Wide Financial Statements

The government-wide financial statements (see pages 6-9) are designed to be corporate-like in that all of the governmental and business-type activities are consolidated into columns that add to a total for the Primary Government. The focus of the Statement of Net Position (the "Unrestricted Net Position") found on pages 6-7 is designed to be similar to bottom line results for the Village and its governmental and business-type activities. This statement combines and consolidates the governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities (see pages 8-9 is focused on both the gross and net cost of various activities (including governmental and business-type), which are supported by the government's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

The governmental activities reflect the Village's basic services, including police, fire, public works, and administration. Property taxes, sales and income taxes and local utility taxes finance the majority of these services. The business-type activities reflect private sector type operations (water, sewer, and parking operations), where the fee for service typically covers all or most of the cost of operation, including depreciation.

Fund Financial Statements

Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus is on major funds rather than (the previous model's) fund types.

The Governmental Major Fund (see pages 10-14) presentation is organized on a sources and uses of liquid resources basis. This is the manner in which the financial plan (the budget) is typically developed. The flow and availability of liquid resources is a clear and appropriate focus of any analysis of a government. Funds are established for various purposes and the Fund Financial Statement allows the demonstration of sources and uses and/or budgeting compliance associated therewith.

VILLAGE OF MOUNT PROSPECT, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The Fund Financial Statements also allow the government to address its Fiduciary Funds (Pension Trust). While these funds represent trust responsibilities of the government, these assets are restricted in purpose and do not represent discretionary assets of the government. Therefore, these assets are not presented as part of the Government-Wide Financial Statements.

While the Business-type Activities column on the Proprietary Fund Financial Statements (see pages 15-19) is the same as the Business-type column on the Government-Wide Financial Statement, the Governmental Funds total column requires a reconciliation because of the different measurement focus (current financial resources versus total economic resources) which is reflected on the page following each statement (see pages 12 and 14). The flow of current financial resources will reflect bond proceeds and interfund transfers as other financial sources or uses, as well as capital expenditures and bond principal payments as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligation (bonds and others) into the Governmental Activities column (in the government-wide statements).

Infrastructure Assets

Historically, a government's largest group of assets (infrastructure – i.e. roads, bridges, storm sewers, etc.) have not been reported nor depreciated in governmental financial statements. GASB Statement No. 34 requires that these assets be valued and reported within the Governmental Activities column of the Government-wide Statements. Additionally, the government must elect to either (1) depreciate these assets over their estimated useful life or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity. If the government develops the asset management system (the modified approach), which periodically (at least every third year), by category, measures and demonstrates its maintenance of locally established levels of service standards, the government may record its cost of maintenance in lieu of depreciation. The Village of Mount Prospect has chosen to depreciate assets over their useful life. If a road project is considered maintenance - a recurring cost that does not extend the road's original useful life or expand its capacity - the cost of the project will be expensed. An "overlay" of a road will be considered maintenance whereas a "rebuild" of a road will be capitalized.

GOVERNMENT-WIDE STATEMENTS

Statement of Net Position

The Village's combined net position for the primary government increased from a negative \$29.6 million to a negative \$28.3 million. The net increase of \$1.3 million is mainly attributable to outperforming intergovernmental revenues including sales tax, income tax, and use tax. The net position for governmental activities is negative \$67.4 million, while the net position for the business-type activities is \$39.1 million.

Table 1 reflects the condensed Statement of Net Position. For more detailed information see the Statement of Net Position found on pages 6-7.

(This space is intentionally left blank.)

| Total net position | \$ | (67.4) | \$ | (70.5) | \$ | 39.1 | \$ | 40.9 | \$ | (28.3) | \$ | (29.6) |

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

Net results of activities - which will impact (increase/decrease) current assets and unrestricted net position.

 $\underline{Borrowing\ for\ capital}\ \text{-}\ which\ will\ increase\ current\ assets\ and\ long-term\ debt.}$

<u>Spending borrowed proceeds on new capital</u> - which will reduce current assets and increase capital assets. There is a second impact, an increase in invested in capital assets and an increase in related net debt which will not change the invested in capital assets, net of debt.

<u>Spending of non-borrowed current assets on new capital</u> - which will (a) reduce current assets and increase capital assets and (b) will reduce unrestricted net position and increase invested in capital assets, net of debt.

<u>Principal payment on debt</u> - which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net position and increase invested in capital assets, net of debt.

Reduction of capital assets through depreciation - which will reduce capital assets and invested in capital assets, net of debt.

Current Year Impacts

Governmental activities net position increased by \$3.8 million while the business-type activities net position decreased by \$1.8 million. The net position is also restated by negative \$0.7 million due to changes in the accrued interest of notes payable. The governmental activities total assets/deferred outflows increased by \$15.6 million and the governmental activities total liabilities/deferred inflows increased by \$12.5 million, of which \$7.2 million of increases are attributable to the increases in the current liabilities. The total assets increased by \$19.8 million in governmental activities, mainly attributable to an increase of \$19.7 million in capital assets. The current assets in governmental increased by \$0.1 million. Amounts due from the Mount Prospect Public Library related to their outstanding debt accounted for the decrease in due from other governments. The decrease in deferred outflows of \$4.2 million for the governmental activities was due to a decrease in pension-related items for IMRF, Police and Fire, and other changes in the in the timing related to the normal course of operations.

The net position of the business-type activities decreased by \$1.8 million. The decrease in total net position is mainly attributable to the current deficit of revenues over expenditures. The business-type activities total assets/deferred outflows increased by \$10.6 million and the business-type activities total liabilities/deferred inflows increased by \$12.4 million. The current assets increased by \$7.6 million, mainly attributable to the increase in cash balances due to the unspent bond proceeds. The business-type capital assets increased by \$0.8 million. During the fiscal year 2019, the Village has implemented GASB 83 – Certain Asset Retirement Obligations. The implementation resulted in a recognition of deferred outflow of resources of \$0.7 million, as well as an increase in the non-current liabilities by the same amount. The liabilities for business-type activities increased from \$11.7 million to \$24.9 million. This was due to an increase in non-current liabilities of \$12.8 million and an increase in current liabilities of \$0.4 million. The non-current liabilities increased mainly due to the series 2019A bond issuance for water and sewer capital projects as well as the recognition of liabilities due to the implementation of GASB 83 – Certain Asset Retirement Obligations.

Changes in Net Position

The Village's combined change in net position for the primary government in 2019 was an increase of 2.0 million versus a decrease of \$3.7 million in 2018. Activities for the governmental activities saw an increase in net position of \$3.8 million from 2018, while activities for the business-type funds saw a decrease in net position of \$1.8 million from 2018. The following chart lists the revenues and expenses for the current and prior fiscal years. Table 2 focuses on the changes in net position of the governmental and business-type activities.

(Note: There may be some slight differences in totals due to rounding).

Normal Impacts

There are eight basic impacts on revenues and expenses and are reflected below.

Revenues:

<u>Economic condition</u> - This can reflect a declining, stable or growing economic environment and has a substantial impact on state income, sales and utility tax revenue as well as public spending habits for building permits, elective user fees and volumes of consumption.

<u>Increase/decrease in Village approved rates</u> - While certain tax rates are set by statute, the Village Board has significant authority to impose and periodically increase/decrease rates (water, sewer, licenses and fees, home rule sales tax, utility taxes, etc.).

<u>Changing patterns in intergovernmental and grant revenue (both recurring and non-recurring)</u> - Certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year-to-year comparisons.

<u>Market impacts on investment income</u> - The Village's investment portfolio is managed using a short-term average maturity and the market condition may cause investment income to fluctuate less than alternative longer-term options.

Expenses:

<u>Introduction of new programs</u> - Within the functional expense categories (Public Safety, Highways and Streets, General Government, etc.) individual programs may be added or deleted to meet changing community needs or unfunded mandates from other governmental levels.

<u>Increase/Decrease in authorized personnel</u> - Changes in service demand may cause the Village Board to increase/decrease authorized staffing levels. Staffing costs (salary and related benefits) represent approximately 73% of the Village's General Fund operating costs.

<u>Salary increases (annual adjustments and merit)</u> - The ability to attract and retain human and intellectual resources requires the Village to strive for a competitive salary range position in the marketplace. In addition, the Village has 4 separate bargaining units representing various segments of the employee population.

<u>Inflation</u> - While overall inflation appears to be reasonably low, the Village is a major consumer of certain commodities such as supplies, fuels and parts. Some specific areas may experience unusually high price increases.

CURRENT YEAR IMPACTS

Governmental Activities

Revenue:

Total revenues for the Village's Governmental Activities for 2019 were \$81.0 million.

The year 2019 is one of the strongest years for revenues in recent times. Good and thriving economy as well as increased interest rates have resulted in higher investment earnings and outperformed revenues. Sales/Use taxes are the largest revenue source for governmental activities accounting for \$30.6 million or an increase of \$0.8 million from the prior year. The increase was due primarily to the steadily improving local economy and additional new retail coming on-line. The sales tax consists of a 1.0% state portion and 1.0% local home-rule portion. Property taxes are the second highest revenue source with \$19.1 million in revenue. This revenue has historically been the most stable source for the Village. The income tax revenue was recognized at \$5.8 million, an increase of \$0.6 million from the prior year. There was an increase of \$0.3 million in charges for service. The investment income for the year is \$1.4 million or an increase of \$0.7 million from the prior year. Other taxes and revenue sources did not show any significant changes compared to prior year.

VILLAGE OF MOUNT PROSPECT, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Governmental Activities (cont.)

Expenses:

Total expenses for the Village's Governmental Activities for 2019 were \$77.2 million.

Public Safety, which includes Police and Fire, accounts for the largest portion of governmental expenses. Total Public Safety expenses in 2019 were \$38.8 million, a decrease of \$3.9 million from 2018. The decrease in the expenditures are mainly attributable to the pension related adjustments. Expenses for Highways and Streets, which are made up of the Public Works divisions (excluding water and sewer) is the second largest category of governmental expenses totaling \$15.6 million. The General Government expenditures totaled \$11.6 million, a decrease of \$0.3 million from the prior year. This decrease of \$0.3 million is mainly attributable to the operating efficiencies and timing of certain expenditures.

Business-Type Activities

Revenues:

Total revenues for the Village's Business-Type Activities for 2019 were \$17.1 million.

Business-type activities in the Village consist of Water and Sewer Operations and Parking Operations. Charges for service annually account for the largest share of revenue for business-type activities. Of the \$17.1 million generated in 2019, \$15.0 million is from water sales and sewer fees and charges, \$0.3 million is from parking operations. For 2018, the total business-type activities revenues were \$14.6 million. Other Revenues include the sale of the assets totaling \$1.3 million and other revenues of \$0.2 million.

Expenses:

Total expenses for the Village's Business-Type Activities for 2019 were \$18.8 million.

Of the total expenses for business-type activities, \$16.9 million is attributable to Water and Sewer while \$1.9 million is attributable to parking including a transfer out of sale proceeds from the Parking Fund to the Prospect & Main TIF Fund. \$6.6 million in Water and Sewer Fund expenses were for the acquisition of water through the Northwest Suburban Municipal Joint Action Water Agency (JAWA).

FINANCIAL ANALYSIS OF THE VILLAGE'S GENERAL FUND

The General Fund is the Village's primary operating fund. It supports a majority of the day-to-day services delivered to its residences and businesses. The fund balance of the General Fund saw an increase of \$3.6 million in 2019 from \$23.0 million to \$26.6 million. In 2019, General Fund revenues came in above the final budget by \$0.7 million while expenditures and net transfers came in \$0.9 million under budget. The final Village budget had anticipated an increase in the General Fund - fund balance of \$2.0 million. Out of the total fund balance of \$26.6 million, \$3.4 million is considered committed fund balance for the Levee 37 Flood Control Construction Project.

During the year 2019, the income tax revenue outperformed by \$0.5 million, while the use tax outperformed by \$0.3 million. The sales tax outperformed by \$2.3 million compared to the original budget. The revised budget was adjusted to reflect the outperforming revenues. The largest revenue source for the General Fund for the fiscal year 2019 was the Intergovernmental revenues totaling \$31.0 million, while the property taxes totaled \$16.2 million. The other locally collected taxes were recognized at \$7.3 million. The building permit fees also outperformed by \$0.3 million and totaled \$0.9 million.

General Fund Budgeting Highlights

During 2019, the Village amended the budget three (3) times. Table 3 below reflects the original and revised budget and the actual revenues and expenditures for the General Fund. More information can be found in the Schedule of Revenues, Expenditures and Changes in fund balance beginning on page 79.

Table 3

Other Major Funds

There are three (3) other Major Funds for Fiscal Year ended December 31, 2019. These three Funds are 1) Debt Service Fund, 2) Prospect/Main TIF Fund, 3) Police and Fire Building Construction.

Debt Service Fund – This Fund is used to accumulate monies for the payment of principal and interest on general obligation bonds and other borrowings. Total revenues for 2019 were \$5.2 million, an increase of \$0.2 million from the prior year. Of this total revenue amount, \$2.4 million was from property taxes, \$1.6 million was from an intergovernmental transfer from the Mount Prospect Public Library to pay for library related debt, and \$1.1 million was from other taxes. Total expenditures for 2019 were \$6.7 million, an increase of \$1.7 from the prior year. There was also an interfund transfer of \$0.8 million received by the debt service fund. Ending fund balance decreased by \$0.7 million to \$3.5 million.

Prospect/Main TIF – This special revenue type TIF Fund is used to account for the resources to acquire property and construct certain improvements in the Prospect/Main Tax Incremental Financing District. Financing is being provided by incremental property taxes, general obligation bond proceeds, and investment income. The Village issued General Obligation Bonds, Series 2019B in the amount of \$8.1 million including a premium of \$0.4 million. The bond was primarily issued for the construction of Maple Street Parking Deck and a few other projects. Total revenues for 2019 were \$0.5 million, while the total revenues for 2018 were \$0.7 million. The total expenses for 2019 were \$3.6 million, of which \$2.8 million was used for capital outlay items. The Prospect & Main TIF also received \$0.6 million for the sale of assets, \$2.2 million in transfers in from General Fund and Parking Fund combined.

Police and Fire Building Construction – This capital project type fund is used to account for the resources to construct the police and fire headquarters. Financing is provided primarily by general obligation bond proceeds. Total revenues for the year 2019 are \$0.7 million. The total construction expenses for 2019 is \$18.3 million. The ending fund balance is \$14.1 million is to be used for the construction of new Fire and Police headquarters.

Capital Assets

At the end of 2019, the Village had a combined total of \$126.5 million invested in a broad range of capital assets including Village facilities, roads, bridges, water/sewer lines and machinery and equipment (see Table 4 below).

Table 4

| Ending Balance | \$ | 88.1 | \$ | 38.4 | \$ 126.5 |

Table 5 above shows the change in capital assets during 2019. This year's major additions to the capital assets include the following (in millions):

Governmental Activities

Land acquisitions - \$0.3 Buildings - \$0.3 Improvements other than buildings - \$0.4 Vehicles for Public Safety, Public Works and Village Fleet - \$2.1 Various construction projects in-progress - \$20.6 Purchases of various machinery & equipment - \$1.0 Infrastructure Improvements - \$1.9

Business-Type Activities

Various construction projects in-progress - \$1.3 Infrastructure Improvements - \$1.2

More detailed information on capital asset activity can be found in Note 4 of the notes to the financial statements.

Debt Outstanding

The Village of Mount Prospect had total long-term debt and loans payable of \$257.9 million as of December 31, 2019. Long-term debt is comprised of general obligation debt, compensated absences to employees, other post-employment benefits (OPEB), loans payable, claims and judgements, and pension liability for IMRF, Police and Fire. During the year, \$17.3 million of general obligation debt and notes payable were issued while pension liability for police and fire decreased by \$14.1 million. The net pension liability of IMRF increased by \$11.0 million. The compensated absences had a net decrease of \$0.3 million, while the total OPEB (Other Post Employment Benefit) liability increased by \$1.3 million. Decreases in long term debt include the retirement of \$3.4 million in general obligation debt and \$0.6 million in notes and loan contracts.

The Village of Mount Prospect maintains an AA+ rating from Standard and Poor's. As a home rule authority, the Village of Mount Prospect does not have a legal debt limit.

More detailed information on long-term debt activity can be found in Note 6 of the notes to the financial statements.

Economic Factors and Next Year's Budget

The General Fund, the Village's main operating fund, ended with a solid surplus for calendar year 2019. The Village has pledged \$3.4 million from the unassigned fund balance for a Levee 37 Flood Control Construction Project. To reflect the pledged fund balance for the project, \$3.4 million is classified as a committed fund balance. The unassigned fund balance as of December 31, 2019 is \$22.9 million. The amount of fund balance as of December 31, 2019 represents 36.6 percent of the 2020 General Fund Budget. The Village Board has set as its benchmark a level of reserves equal to 25% of subsequent year expenditures. Total Village revenues for 2019 continued to see positive increases from the prior year. Conservative approaches to estimating revenue and strong expenditure management by the various departments have allowed the Village to maintain a strong financial condition through several lean years following the significant downturn in the economy that started at the end of 2008. Continuing challenges in 2019 and years to come include, reductions in revenue due to state budgetary issues, rising personnel related costs (wages, insurance, etc.) and the funding of the public safety pensions. Approximately 73% of the operating budget is made up of these personnel and related costs.

The Village's average unemployment for 2019 was 2.7 percent. This is below the state and national unemployment rates of 3.5% and 2.9%, respectively. The Village's unemployment rate decreased 20 basis points from the prior year. The Village is mainly divided between Elk Grove Township and Wheeling Township, and a small portion of the Village is within Maine Township. The year 2019 was a year of the triennial assessment. The Elk Grove Township has increased the assessed value of all the properties on an average by 53 percent, while the Wheeling Township increased the average assessed value by 31.0 percent. The increase in the assessed value is expected to increase the total equalized assessed value of the Village to \$2.0 billion or more. The equalized assessed value also depends up on the equalization factor to be issued by the Cook County Clerk's Office.

VILLAGE OF MOUNT PROSPECT, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The 2020 Budget represents an 8.9 percent decrease from the amended 2019 Budget and totals \$147.9 million. The decrease in the budget is attributable to significant completion of the major capital projects in 2019 and the Village is reverting back to a more normal capital improvement plan. The General Fund increased \$4.7 million, or 8.2% from the prior year. The increase is attributable to the budgeted transfer out from the General Fund to Flood Control Construction Fund and other capital project funds. Of the total budget of \$147.9 million, the operating budget totals \$76.9 million and Community Investment Program (capital improvement plan) totals \$30.8 million. The total budget also includes Police and Fire Pension fund budget totaling \$12.9 million.

Beginning around March 2020, the COVID-19 virus has been declared a global pandemic as it continues to spread rapidly. The pandemic has caused certain concerns about the safety, economy, unemployment, and the State shared revenues. The Village has implemented a contingency plan as defined in the Annual Budget and has acted accordingly to reduce/postpone certain expenditures in anticipation of reductions in the State shared revenues. The Village's financial health and cash position is strong, and we do not anticipate any short-term concerns, but the Village Administration is vigilant and committed to maintaining the long term fiscal health of the Village.

Request for Information

This financial report is designed to provide a general overview of the Village of Mount Prospect's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Amit Thakkar, Finance Director/Treasurer, Village of Mount Prospect, 50 South Emerson, Mount Prospect, Illinois 60056.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Mount Prospect, Illinois (the Village) was incorporated in 1917. The Village operates under the Council/Manager form of government. The Village's major operations include public works, finance, police, fire, community development, human services, and communications.

The financial statements of the Village have been prepared in conformity with accounting principles generally accepted in the United States of America (hereinafter referred to as generally accepted accounting principles (GAAP)), as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below.

a. Reporting Entity

The Village is a municipal corporation governed by an elected mayor and a six-member board of trustees. As required by GAAP, these financial statements present the Village (the primary government) and its component units. In evaluating how to define the reporting entity, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was based upon the significance of its operational or financial relationship with the primary government. A blended component unit, although legally separate, is, in substance, part of the Village's operations and so data from this unit is combined with the data of the primary government. A discretely presented component unit, on the other hand, is reported in a separate column on the government-wide financial statements to emphasize it is legally separate from the Village. The Village has no discretely presented component units.

The Village's financial statements include two pension trust funds.

Police Pension Employees Retirement System

The Village's financial statements include the Police Pension Employees Retirement System (PPERS) as a fiduciary component unit reported as a pension trust fund. The Village's sworn police employees participate in the PPERS. PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one elected pension beneficiary, and two elected police employees constitute the pension board. The participants are required to contribute a percentage of salary as established by state statute and the Village is obligated to fund all remaining PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of the Village's contribution levels. Accordingly, the PPERS is fiscally dependent on the Village.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

a. Reporting Entity (Continued)

Firefighters' Pension Employees Retirement System

The Village's financial statements include the Firefighters' Pension System (the FPERS) as a fiduciary component unit reported as a Pension Trust Fund. The Village's sworn full-time firefighters participate in the FPERS. FPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one elected pension beneficiary, and two elected from active participants of the Firefighters' Pension Fund constitute the pension board. The participants are required to contribute a percentage of salary as established by state statute and the Village is obligated to fund all remaining FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Accordingly, the FPERS is fiscally dependent on the Village.

b. Fund Accounting

The Village uses funds to report on its financial position, changes in its financial position, and cash flows. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. The minimum number of funds are maintained consistent with legal and managerial requirements.

Funds are classified into the following categories: governmental, proprietary, and fiduciary.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of restricted or committed monies (special revenue funds), the funds committed, restricted, or assigned for the acquisition or construction of capital assets (capital projects funds), and the funds committed, restricted, or assigned for the servicing of long-term debt (debt service funds). The General Fund is used to account for all activities of the general government not accounted for in some other fund.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Fund Accounting (Continued)

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the Village (internal service funds).

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments. The Village utilizes pension trust funds which are generally used to account for assets that the Village holds in a fiduciary capacity.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Village. The effect of material interfund activity has been eliminated from these statements. Interfund services provided and used are not eliminated on these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment, or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental funds:

The General Fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

The Prospect/Main TIF Fund is used to account for the resources to acquire property and construct certain improvements in the Prospect/Main Tax Incremental Financing District. Financing is being provided by incremental property taxes, general obligation bond proceeds, and investment income.

The Police and Fire Building Construction Fund is used to account for the resources to construct the police and fire building. Financing is provided primarily by general obligation bond proceeds.

The Debt Service Fund is used to account for the servicing of general long-term debt not being financed by proprietary funds.

The Village reports the following major proprietary fund:

The Water and Sewer Fund accounts for the activities of the water and sewer operations. The Village operates sewerage pumping stations and collection systems, and the water distribution system.

The Village reports the following internal service funds:

Internal Service Funds account for operations that provide services to other departments or agencies of the Village, or to other governments, on a cost-reimbursement basis.

The Computer Replacement Fund accounts for the acquisition of village computer hardware. Financing is being provided by charges to various village funds.

The Risk Management Fund accounts for the servicing and payment of claims for liability, property/casualty coverage, workers' compensation, and medical benefits. Financing is being provided by charges to the various village funds.

The Vehicle Replacement Fund accounts for the acquisition and depreciation of village vehicles. Financing is being provided by charges to the General, Water and Sewer, Parking System Revenue, and Village Parking System Funds.

The Vehicle Maintenance Fund accounts for the maintenance and repair of all village vehicles. Financing is being provided by charges to various village funds.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

The Village reports the following fiduciary funds:

The Pension Trust Funds account for the Police Pension Fund and Firefighters' Pension Fund.

d. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues and expenses are directly attributable to the operation of the proprietary funds. Non-operating revenue/expenses are incidental to the operations of these funds.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, generally 60 days except for sales taxes and telecommunication taxes which use 90 days. The Village recognizes property taxes when they become both measurable and available in the year for which they are levied (i.e., intended to finance). Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as expenditures when due.

Sales taxes owed from the state at year end, franchise taxes, licenses, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as liabilities or revenues of the current fiscal period. Income and motor fuel taxes and fines collected and held by the state or county at year end on behalf of the Village also are recognized as revenue. Fines and permits revenues are not susceptible to accrual because generally they are not measurable until received in cash.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

In applying the susceptible to accrual concept to intergovernmental revenues (e.g., federal and state grants), the legal and contractual requirements of the numerous individual programs are used as guidelines. There are, however, essentially two types of revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the Village; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are generally revocable only for failure to comply with prescribed eligibility requirements, such as equal employment opportunity. These resources are reflected as revenues at the time of receipt or earlier if they meet the availability criterion.

The Village reports unavailable/deferred and unearned revenue on its financial statements. Unavailable/deferred revenues arise when a potential revenue does not meet both the measurable and available or year intended to finance criteria for recognition in the current period. Unearned revenues arise when resources are received by the government before it has a legal claim to them such as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both the revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability or deferred inflow of resources for unearned and unavailable/deferred revenue is removed from the financial statements and revenue is recognized.

e. Cash and Investments

For purposes of the statement of cash flows, the Village's proprietary funds consider all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

f. Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit, and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased and all investments of the pension trust funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances are offset by nonspendable fund balance in applicable governmental funds.

Interfund service transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions are reported as transfers.

h. Inventories

Inventories are valued at cost, which approximates market, using the average cost method. The costs of governmental fund inventories are recorded as expenditures when consumed rather than when purchased.

i. Prepaid Items

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items. Prepaid items are recorded as expenditures/expenses when consumed rather than when purchased.

j. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, stormsewers, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure, buildings and improvements, purchased or acquired with an original cost of over \$20,000 and infrastructure, buildings and improvements with an original cost of over \$50,000 are reported at historical cost, or estimated historical cost. Donated capital assets are recorded at acquisition value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

j. Capital Assets (Continued)

The costs of normal maintenance and repairs, including street overlays, that do not add to the value or service capacity of the asset or materially extend asset lives, are not capitalized.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are recorded at acquisition value at the date of donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

| Assets | Years |
|----------------------------|-------|
| | |
| Buildings and improvements | 20-50 |
| Machinery and equipment | 2-20 |
| Vehicles | 2-20 |
| Infrastructure | 15-50 |

k. Compensated Absences

Vested or accumulated vacation and sick leave are reported as an expenditure and a fund liability of the governmental fund that will pay it once retirement or separation has occurred. Vested or accumulated vacation and sick leave of proprietary funds and governmental activities are recorded as an expense and liability of those funds as the benefits accrue to employees.

1. Rebatable Arbitrage

The Village reports rebatable arbitrage as a reduction of revenue. Where applicable, any liability for rebatable arbitrage is reported in the fund in which the excess investment income was recorded.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m. Long-Term Obligations

In the government-wide financial statements and proprietary funds in the fund financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund financial statements. Bond premiums and discounts, as well as gains (losses) on refundings, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

n. Property Taxes

Property taxes for 2019 attached as an enforceable lien on January 1, 2019 on property values assessed as of the same date. Taxes are levied by December of the fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and issued on or about February 1, 2020 and August 1, 2020 and are payable in two installments, on or about March 1, 2020 and September 1, 2020. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 2% of the tax levy, to reflect actual collection experience. Since the 2019 levy is intended to fund the 2020 fiscal year, the levy has been recorded as a receivable and deferred inflow of resources.

o. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

p. Fund Balances/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or that are legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for a specific purpose, or externally imposed by outside entities. None of the restricted fund balance resulted from enabling legislation adopted by the Village. Committed fund balance is constrained by formal actions of the Village's Board of Trustees, which is considered the Village's highest level of decision-making authority. Formal actions include ordinances approved by the Board of Trustees. Assigned fund balance represents amounts constrained by the Village's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Village Manager through the fund balance policy adopted by the Village Board of Trustees. Any residual fund balance of the General Fund and any deficit in other governmental funds is reported as unassigned.

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the Village considers committed funds to be expended first followed by assigned and then unassigned funds.

The Village's policy states that the General Fund should maintain an unrestricted fund balance level between 20% and 30% of the subsequent fiscal year's annual budgeted expenditures, the special revenue funds (except the CDBG Fund) should maintain a fund balance level between 10% and 25% of the subsequent fiscal year's annual budgeted expenditures, not including capital, debt service and transfers, the Debt Service Fund should maintain a fund balance level at a maximum of the amount of the next principal and interest payment due, and the Capital Projects Fund should maintain a fund balance level between 25% and 50% of the five-year average for capital expenditures by the fund to a maximum of \$1 million.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the book value of capital assets less any outstanding long-term debt issued to acquire or construct the capital assets.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

q. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The Village and pension funds categorize fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. Refer to Note 12 for relevant information related to the Police Pension Plan and Firefighters' Pension Plan.

The Village maintains a cash and investment pool that is available for use by all funds, except the pension trust funds. Each fund's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Village's funds. The deposits and investments of the pension trust funds are held separately from those of other funds.

Village Deposits and Investments

The Village's investment policy authorizes the Village to invest in all investments allowed by Illinois Compiled Statutes (ILCS). These include deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, The Illinois Funds, and Illinois Metropolitan Investment Fund (IMET). The Village's investment policy does limit its deposits to financial institutions that are members of the FDIC system and are capable of posting collateral for amounts in excess of FDIC insurance.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

Village Deposits and Investments (Continued)

It is the policy of the Village to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Village and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity, and rate of return.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount not less than 105% of the fair market value of the funds secured, with the collateral witnessed by a written collateral agreement and held by an independent third party in the Village's name.

Investments

The following table presents the investments and maturities of the Village's debt securities as of December 31, 2019:

| | _ | Investment Maturities (in Years) | | | | | |
|--------------------------------|---------------------------|----------------------------------|-----------|-----------|---------|--|--|
| | | Less | | | Greater | | |
| Investment Type | Fair Value | than 1 | 1-5 | 6-10 | than 10 | | |
| U.S. Treasury U.S. agencies | \$ 2,100,978 2,503,874 | \$ 2,100,978 \$ 2,503,874 | - \$ - | - \$ - | - - | | |
| TOTAL | \$ 4,604,852 | \$ 4,604,852 \$ | - \$ | - \$ | | | |

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for short and long-term cash flow needs while providing a reasonable rate of return based on the current market. Unless matched to a specific cash flow, maturities should not exceed two years from the date of purchase.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Village limits its exposure to credit risk by permitting investments in only those securities allowed under law and by specifically prohibiting investments in leveraged or derivative securities. The U.S. agency securities, The Illinois Funds, and IMET are rated AAA.

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, and thus, reports all investments at amortized cost rather than fair value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Illinois Business Center, 400 West Monroe Street, Suite 401, Springfield, Illinois 62704.

IMET is a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. Investments in IMET are valued at IMET's share price, the price for which the investment could be sold.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Village's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by an independent third-party custodian and evidenced by safekeeping receipts and a written custodial agreement. The Illinois Funds, money market mutual funds, and IMET are not subject to custodial credit risk.

Concentration of credit risk is the risk that the Village has too high a percentage of their investments invested in one type of investment. The Village's investment policy requires diversification of investment to avoid unreasonable risk. The Village's investment policy states the Village's portfolio shall be diversified in order to limit the investment holdings of a specific issuer or business sector to avoid over concentration in any one institution or area excluding investments in U.S. Treasury securities and authorized investment pools.

NOTES TO FINANCIAL STATEMENTS (Continued)

3. RECEIVABLES

The following receivables are included in due from other governments on the statement of net position:

| GOVERNMENTAL ACTIVITIES | |
|-------------------------------|-----------------|
| Court fines | \$ 14,407 |
| Mount Prospect Public Library | 4,542,611 |
| Grants | 478,568 |
| Miscellaneous | 45,339 |
| | |
| TOTAL | \$ 5,080,925 |

The Series 2006 General Obligation Library Refunding Bonds, the Series 2011A General Obligation Refunding Bonds, and the Series 2016 General Obligation Refunding Bonds were issued to provide financing to the Mount Prospect Public Library (the Library). The Library is repaying these bonds issued by the Village. The Series 2006 General Obligation Library Refunding Bonds were refunded by the Series 2016 General Obligation Refunding Bonds during fiscal year 2016. The future principal and interest payments owed from the Library are as follows with the principal portion recorded as an intergovernmental receivable in the debt service fund/governmental activities.

The annual debt service requirements are as follows:

| Year Ending | | |
|----------------------|--|-----------------------------|
| December 31, | Principal | Interest |
| 2021 2020 2022 | \$ 1,470,000 S 1,515,000 1,550,000 | 105,400 61,300 31,000 |
| TOTAL | \$ 4,535,000 | 197,700 |

5. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and injuries to the Village's employees. These risks along with medical claims for employees and retirees were provided for through a limited self-insurance program through December 31, 2019.

Effective January 1, 2018, The Village participates in the Intergovernmental Risk Management Agency (IRMA). IRMA is an organization of Illinois municipalities and special districts in Northeastern Illinois which have formed an association under the Illinois Intergovernmental Cooperation Statute to pool its risk management needs. IRMA administers a mix of self-insurance and commercial insurance coverages; property/casualty and workers' compensation claim administration and litigation management services; unemployment claim administration; extensive risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

Each member appoints one delegate along with an alternate delegate, to represent the member on the Board of Directors. The Village does not exercise any control over the activities of IRMA beyond its representation on the Board of Directors.

Initial contributions are determined each year based on the individual member's eligible revenue as defined in the by-laws of IRMA and experience modification factors based on past member loss experience. Each member assumes the first \$10,000 (higher optional deductibles available) of each occurrence, and IRMA has self-insurance retentions at various amounts above that level. Members have a contractual obligation to fund any deficit of IRMA attributable to a membership year during which they were a member. Supplemental contributions may be required to fund these deficits. The Village's payments to IRMA are displayed on the financial statements as expenditures/expenses in the appropriate funds. The coverages provided by IRMA are generally consistent with the coverages in the prior year.

The Village has chosen an optional higher deductible of \$100,000. A related reserve deposit of \$919,551 is being held at IRMA at December 31, 2019.

The Village's insurance activities are reported in the Risk Management Fund which is an internal service fund. Premiums are paid into the Risk Management Fund by the departments of the General Fund and other funds based upon historical cost estimates.

The total claims liability remaining as of December 31, 2019 was \$414,909.

NOTES TO FINANCIAL STATEMENTS (Continued)

5. RISK MANAGEMENT (Continued)

a. Intergovernmental Personnel Benefit Cooperative

The Village participates in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC is a public entity risk pool established by certain units of local government in Illinois to administer some or all of the personnel benefit programs (primarily medical, dental, and life insurance coverage) offered by these members to their officers and employees and to the officers and employees of certain other governmental, quasi governmental, and nonprofit public service entities. Management consists of a Board of Directors comprised of one appointed representative from each member. The officers of IPBC are chosen by the Board of Directors from among their membership. The Village does not exercise any control over the activities of IPBC beyond its representation on the Board of Directors.

IPBC acts as an administrative agency to receive, process, and pay such claims as may come within the benefit program of each member. IPBC maintains specific reinsurance coverage for claims in excess of \$75,000 per individual employee participant. The Village pays premiums to IPBC based upon current employee participation and its prior experience factor with the pool. Current year overages and underages for the participation in the pool are adjusted into subsequent years experience factor for premiums. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

A reserve deposit of \$2,524,777 is being held at IPBC at December 31, 2019.

NOTES TO FINANCIAL STATEMENTS (Continued)

6. LONG-TERM DEBT

a. General Obligation Bonds

The Village issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the Village. Any general obligation bonds issued for proprietary funds are reported in the proprietary funds if they are expected to be repaid from proprietary revenues. General obligation bonds have been issued for general governmental activities and for the Library. In addition, general obligation bonds have been issued to refund general obligation bonds.

On June 3, 2019, the Village issued General Obligation Bonds, Series 2019A in the amount of \$9,600,000. The proceeds are to be used in the Water and Sewer Fund on implementation of proposed capital plans, including renewal and replacement of the water distribution system and sewer collections system.

On November 25, 2019, the Village issued \$7,725,000 General Obligation Bonds, Series 2019B. The proceeds are to be used on TIF redevelopment projects in the Prospect Main TIF.

b. Installment Notes Payable

The Village enters into installment notes payable (direct borrowing) to provide funds for acquisition of capital assets. Installment notes payable have been issued for the governmental activities. Installment notes payable are direct obligations and pledge the full faith and credit of the Village.

c. Business District Limited Tax Note Payable

The Village has issued a note payable (direct borrowing) related to a developer agreement. The limited tax note payable has been issued for the governmental activities and is a limited obligation of the Village, payable solely from certain tax revenues as set forth in the developer agreement. The developer agreement term will expire upon the earlier to occur of (a) the expiration of the term of any bonds issued by the Village which yield developer proceeds equal to the maximum reimbursement amount, (b) the date which all obligations under this agreement have been discharged, including, but not limited to, payments on any bonds issued by the Village and on the note payable, or (c) 35 years following the issuance of the note payable. After a final accounting is completed and any remaining amounts are paid to the developer, the note payable shall be marked "cancelled" and returned to the Village.

| TOTAL | \$ | 18,870,000 | \$ | 7,773,695 | | |

6. **LONG-TERM DEBT (Continued)**

f. **Asset Retirement Obligation**

The Village has recognized an asset retirement obligation (ARO) and related deferred outflow of resources in connection with its obligation to seal and abandon various water wells at the end of their estimated useful lives in accordance with the Illinois Administrative Code Title 77. The ARO was measured using actual historical costs for similar abandonments, adjusted for inflation through the end of the year. The estimated remaining useful lives of the water wells are 100 years.

Legal Debt Margin g.

The Village is a home rule municipality. Article VII, Section 6(k) of the 1970 Illinois Constitution governs computation of the legal debt margin.

"The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property . . . (2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent: . . . indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum . . . shall not be included in the foregoing percentage amounts."

To date the General Assembly has set no limits for home rule municipalities.

7. **CONTRACTUAL COMMITMENTS**

Solid Waste Agency of Northern Cook County

Annual payments to Solid Waste Agency of Northern Cook County (SWANCC) are based on estimated tonnage of waste transported to SWANCC. It is assumed that there will be no material changes in deliveries to SWANCC. For 2020, the Village estimates it will pay SWANCC \$993,726, with annual increases ranging from 0% to 3% through 2022.

8. INTERFUND ACTIVITY

Due From/To Other Funds

| Receivable Fund | Payable Fund | A | mount | |
|---|--------------------|----|----------------|--|
| Police Pension Firefighters' Pension | General General | \$ | 1,390 1,987 | |
| TOTAL | | \$ | 3,377 | |

NOTES TO FINANCIAL STATEMENTS (Continued)

8. INTERFUND ACTIVITY (Continued)

The purpose of the significant interfund receivables/payables are as follows:

• \$3,377 due from the General Fund to the Police and Firefighters' Pension Funds for property tax refunds issued by the county.

Transfers

The purpose of significant transfers from/to between funds are as follows:

- \$750,000 transferred to the Capital Improvement Fund from the General Fund for capital projects.
- \$790,000 transferred to the Debt Service Fund from the General Fund for debt service payments.
- \$2,169,981 transferred to the Prospect/Main TIF fund for capital projects. \$1,602,619 was transferred from the Village Parking System Fund and \$567,362 was transferred from the General Fund.

9. CONTINGENT LIABILITIES

a. Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

b. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

NOTES TO FINANCIAL STATEMENTS (Continued)

10. JOINT VENTURES

a. Solid Waste Agency of Northern Cook County

The Village is a member of SWANCC which consists of 23 municipalities. SWANCC is a municipal corporation and public body politic and corporate established pursuant to the Intergovernmental Cooperation Act of the State of Illinois. SWANCC is empowered to plan, construct, finance, operate, and maintain a solid waste disposal system to serve its members.

SWANCC is governed by a board of directors which consists of the mayor or president from each member municipality. Each director has an equal vote. The officers of SWANCC are appointed by the Board of Directors. The Board of Directors determines the general policy of SWANCC, makes all appropriations, approves contracts, provides for the issuance of debt, adopts by-laws, rules and regulations, and exercises such powers and performs such duties as may be prescribed in the agency agreement or the by-laws.

Complete financial statements can be obtained from the Solid Waste Agency of Northern Cook County administrative office at 77 West Hintz Road, Suite 200, Wheeling, Illinois 60090 or online at www.swancc.org.

SWANCC's outstanding bonds are revenue obligations. They are limited obligations of SWANCC with a claim for payment solely from and secured by a pledge of the revenues of the system and amounts in various funds and accounts established by SWANCC resolutions. The bonds are not the debt of any member. SWANCC has no power to levy taxes.

Revenues of the system consist of (1) all receipts derived from solid waste disposal contracts or any other contracts for the disposal of waste; (2) all income derived from the investment of monies; and (3) all income, fees, service charges, and all grants, rents, and receipts derived by SWANCC from the ownership and operation of the system. SWANCC covenants to establish fees and charges sufficient to provide revenues to meet all its requirements.

SWANCC has entered into solid waste disposal contracts with the member municipalities. The contracts are irrevocable and may not be terminated or amended except as provided for in the contract. Each member is obligated, on a "take or pay" basis, to deliver a minimum amount of solid waste to the system. The obligation of the Village to make all payments as required by this contract is unconditional and irrevocable, without regard to performance or nonperformance by SWANCC of its obligations under the contract. The contract does not constitute an indebtedness of the Village within the meaning of any statutory or constitutional limitation.

NOTES TO FINANCIAL STATEMENTS (Continued)

10. JOINT VENTURES (Continued)

a. Solid Waste Agency of Northern Cook County (Continued)

In accordance with the contract, the Village made payments totaling \$955,403 to SWANCC in 2019. The payments have been recorded in the Refuse Disposal Fund. The Village does not have an equity interest in SWANCC at December 31, 2019.

b. Northwest Suburban Municipal Joint Action Water Agency

Description of Joint Venture

The Village is a member of Northwest Suburban Municipal Joint Action Water Agency (JAWA) which consists of seven municipalities. JAWA is a municipal corporation and public body politic and corporate established pursuant to the Intergovernmental Cooperation Act of the State of Illinois. JAWA is empowered to plan, construct, improve, extend, acquire, finance, operate, and maintain a water supply system to serve its members and other potential water purchasers.

The seven members of JAWA and their percentage shares as of April 30, 2019 are as follows:

| | Percent |
|------------------------------|----------|
| | Share |
| | |
| Village of Elk Grove Village | 18.47% |
| Village of Hanover Park | 8.70% |
| Village of Hoffman Estates | 15.67% |
| Village of Mount Prospect | 12.05% |
| City of Rolling Meadows | 6.98% |
| Village of Schaumburg | 27.49% |
| Village of Streamwood | 10.64% |
| TOTAL | 100.00% |
| 101112 | 100:0070 |

These percentage shares are based upon formulae contained in the water supply agreement and are subject to change in future years based upon consumption by the municipalities.

The members form a contiguous geographic service area which is located 15 to 30 miles northwest of downtown Chicago. Under the Agency Agreement, additional members may join JAWA upon the approval of each member.

NOTES TO FINANCIAL STATEMENTS (Continued)

10. JOINT VENTURES (Continued)

b. Northwest Suburban Municipal Joint Action Water Agency (Continued)

Description of Joint Venture (Continued)

JAWA is governed by a Board of Directors which consist of one elected official from each member municipality. Each director has an equal vote. The officers of JAWA are appointed by the Board of Directors. The Board of Directors determines the general policy of JAWA, makes all appropriations, approves contracts for sale or purchase of water, provides for the issuance of debt, adopts by-laws, rules and regulations, and exercises such powers and performs such duties as may be prescribed in the agency agreement or the by-laws.

Complete financial statements can be obtained from the Northwest Suburban Municipal Joint Action Water Agency, 901 Wellington Avenue, Elk Grove Village, Illinois 60007.

Revenues of the system consist of: (a) all receipts derived from Water Supply Agreements or any other contract for the supply of water; (b) all income derived from the investment of monies; and (c) all income, fees, water service charges, and all rates, rents, and receipts derived by JAWA from the ownership and operation of the system and the sale of water. JAWA covenants to establish fees and charges sufficient to provide revenues to meet all its requirements.

JAWA has entered into water supply agreements with the seven-member municipalities for a term of 40 years, extending to 2022. The agreements are irrevocable and may not be terminated or amended except as provided for in the General Resolution. Each member is obligated, on a "take or pay" basis, to purchase or in any event to pay for a minimum annual quantity of water.

JAWA has entered into an agreement with the City of Chicago (the City) under which the City has agreed to sell quantities of Lake Michigan water sufficient to meet the projected water needs of the members through the year 2020.

The obligation of the Village to make all payments as required by this agreement is unconditional and irrevocable, without regard to performance or nonperformance by JAWA of its obligations under this agreement.

The payments required to be made by the Village under this agreement shall be required to be made solely from revenues to be derived by the Village from the operation of the Water and Sewer System. Members are not prohibited by the agreement; however, from using other available funds to make payments under the agreement. This agreement shall not constitute an indebtedness of the Village within the meaning of any statutory or constitutional limitation.

NOTES TO FINANCIAL STATEMENTS (Continued)

10. JOINT VENTURES (Continued)

b. Northwest Suburban Municipal Joint Action Water Agency (Continued)

Description of Joint Venture (Continued)

The obligation of the Village to make payments required by this agreement is payable from the Village's Water and Sewer Fund.

In accordance with the joint venture agreement, the Village remitted \$6,715,449 to JAWA for 2019. Deposits with JAWA in the amount of \$1,117,447 represent amounts held for security for debt service.

11. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described, the Village provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan (the Plan). The benefits, benefit levels, employee contributions, and employer contributions are governed by the Village and can be amended by the Village through its personnel manual and union contracts. Certain benefits are controlled by state laws and can only be changed by the Illinois Legislature. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The Plan does not issue a separate report. The activity of the Plan is reported in the Village's governmental and business-type activities.

b. Benefits Provided

The Village provides pre and post-Medicare postretirement health insurance to retirees, their spouses, and dependents (enrolled at time of employee's retirement).

To be eligible for benefits, the employee must qualify for retirement under one of the Village's three retirement plans. The retirees pay the blended premium. Upon a retiree becoming eligible for Medicare, the amount payable under the Village's health plan will be reduced by the amount payable under Medicare for those expenses that are covered under both. All healthcare benefits are provided through the Village's health insurance plan. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous, and substance abuse care; and prescriptions. Upon a retiree reaching 65 years of age, Medicare becomes the primary insurer and the Village's plan becomes secondary. All retirees contribute 100% of the actuarially determined premium to the Plan. For the fiscal year ended December 31, 2019, retirees contributed \$858,090. For any disabled employees who qualify for health insurance benefits under the Public Safety Employee Benefits Act (PSEBA), the Village is required to pay 100% of the cost of basic health insurance for the employee and their dependents for their lifetime.

NOTES TO FINANCIAL STATEMENTS (Continued)

11. OTHER POSTEMPLOYMENT BENEFITS (Continued)

c. Membership

At December 31, 2019 membership consisted of:

| Inactive employees currently receiving benefit payments | 82 |
|---|-----|
| Inactive employees entitled to but not yet receiving benefits | - |
| Active employees | 296 |
| | |
| TOTAL | 378 |
| | |
| Participating employers | 1_ |

d. Actuarial Assumptions and Other Inputs

The total OPEB liability was determined by an actuarial valuation performed as of January 1, 2019 using the following actuarial methods and assumptions.

Actuarial valuation date January 1, 2019

Measurement date December 31, 2019

Actuarial cost method Entry-age normal

Inflation 2.50%

Discount rate 3.26%

Healthcare cost trend rates 8.00% to an ultimate

trend rate of 4.50%

Asset valuation method N/A

Mortality rates RPH - 2018 fully

generational using scale

MP-2018

e. Discount Rate

The discount rate was based on the S&P Municipal Bond 20 year high-grade rate index rate for tax exempt general obligation municipal bonds rated AA or better at December 31, 2019.

11. **OTHER POSTEMPLOYMENT BENEFITS (Continued)**

f. Changes in the Total OPEB Liability

| | Total OPEB Liability | | |
|--|-------------------------|------------|--|
| BALANCES AT JANUARY 1, 2019 | \$ | 10,889,132 | |
| Changes for the period | | | |
| Service cost | | 457,933 | |
| Interest | | 457,768 | |
| Changes in assumptions | | 1,326,575 | |
| Differences between expected and actual experience | | (530,505) | |
| Benefit payments | | (422,580) | |
| Net changes | | 1,289,191 | |
| BALANCES AT DECEMBER 31, 2019 | \$ | 12,178,323 | |

There was a change in assumptions related to the discount rate, inflation rate, and healthcare trend rates in 2019.

Rate Sensitivity g.

The following is a sensitive analysis of total OPEB liability to changes in the discount rate and the healthcare cost trend rate. The table below presents the total OPEB liability of the Village calculated using the discount rate of 3.26% as well as what the Village's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.26%) or 1 percentage point higher (4.26%) than the current rate:

| | 1 | % Decrease | D | Current iscount Rate | 1% Increase | | | |
|----------------------|---------|------------|----|----------------------|-------------|------------|--|--|
| | (2.26%) | | | (3.26%) | (4.26%) | | | |
| Total OPEB liability | \$ | 14,091,306 | \$ | 12,178,323 | \$ | 10,641,341 | | |

The table below presents the total OPEB liability of the Village calculated using the healthcare rate of 8.00% to 4.50% as well as what the Village's total OPEB liability would be if it were calculated using a healthcare rate that is 1 percentage point lower (7.00% to 3.50%) or 1 percentage point higher (9.00% to 5.50%) than the current rate:

| | | Current | | | | | | | | |
|----------------------|------|------------------|----|---------------|------------------|------------|--|--|--|--|
| | 1 | % Decrease | He | althcare Rate | 1% Increase | | | | | |
| | (7.0 | (7.00% to 3.50%) | | 0% to 4.50%) | (9.00% to 5.50%) | | | | | |
| | | | | | | | | | | |
| Total OPEB liability | \$ | 10,278,162 | \$ | 12,178,323 | \$ | 14,638,247 | | | | |

| 2024 | (229,070 |
| Thereafter | (369,690 |
| mom . v | . |
| TOTAL | \$ (1,515,040 |

12. EMPLOYEE RETIREMENT SYSTEMS

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system; the Police Pension Plan which is a single-employer pension plan; and the Firefighters' Pension Plan which is also a single-employer pension plan. The benefits, benefit levels, employee contributions, and employer contributions for all three plans are governed by ILCS and can only be amended by the Illinois General Assembly. The Police and Firefighters' Pension Plans issue separate reports that can be obtained from the Village at 50 South Emerson Street, Mt. Prospect, Illinois 60056. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at imrf.org.

The aggregate total expense for all pension plans was \$10,604,568 at December 31, 2019.

NOTES TO FINANCIAL STATEMENTS (Continued)

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions

<u>Illinois Municipal Retirement Fund</u>

All employees (other than those covered by the Police Pension Plan or Firefighters' Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. For financial reporting purposes, the Village and Library participate in IMRF as a cost-sharing multiple-employer pension plan. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Participating members are required to contribute 4.50% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution rate for calendar year 2019 was 9.60%.

Plan Membership

At December 31, 2018 (most recent information available), IMRF membership consisted of:

| Inactive plan members currently receiving benefits | 265 |
|--|-----|
| Inactive plan members entitled to but not yet receiving benefits | 165 |
| Active plan members | 253 |
| | |
| TOTAL | 683 |

The IMRF data included in the table above includes membership of both the Village and the Library.

NOTES TO FINANCIAL STATEMENTS (Continued)

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Actuarial Assumptions

The total pension liability above was determined by an actuarial valuation performed as of December 31, 2018 using the following actuarial methods and assumptions.

| Actuarial valuation date | December 31, 2018 |
|-------------------------------------|---|
| Actuarial cost method | Entry-age normal |
| Asset valuation method | Fair value of assets |
| Assumptions Price inflation | 2.50% |
| Salary increases | 3.39% to 14.25% |
| Investment rate of return | 7.25% |
| Cost of living adjustments - Tier 1 | 3.00% |
| Cost of living adjustments - Tier 2 | 3.00% or ½ of the increase in the Consumer Price Index, whichever is less |

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Illinois Municipal Retirement Fund (Continued)

Discount Rate

The discount rate used to measure the IMRF total pension liability was 7.25% (7.50% in 2017). The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

a. Plan Descriptions (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Changes in the Net Pension Liability (Continued)

The table presented on the previous page includes amounts for both the Village and the Library. The Village's collective shares of the net pension liability at January 1, 2018, the employer contributions, and the net pension liability at December 31, 2018 were \$684,960, \$1,486,533, and \$11,728,646, respectively. The Library's collective shares of the net pension liability at January 1, 2018, the employer contributions, and the net pension liability at December 31, 2018 were \$251,674, \$546,194, and \$4,309,434, respectively.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended December 31, 2019, the Village recognized pension expense of \$981,109.

At December 31, 2019, the Village reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|--|-------------------------------------|
| Difference between expected and actual experience Changes in assumptions Employer contributions after the measurement date Net difference between projected and actual earnings | \$ 1,847,816 1,627,337 1,332,718 | \$ 123,968 1,143,664 |
| on pension plan investments TOTAL | \$ 9,364,407 | \$ 1,267,632 |

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources (Continued)

\$1,332,718 reported as deferred outflows of resources related to pensions resulting from the Village contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ending December 31, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized as pension expense by the Village as follows:

| Year Ending | |
|--------------|--------------|
| December 31, | |
| | |
| 2020 | \$ 2,033,157 |
| 2021 | 1,377,602 |
| 2022 | 1,523,342 |
| 2023 | 1,829,956 |
| 2024 | - |
| | |
| TOTAL | \$ 6,764,057 |

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate of 7.25% as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

| | Current | | | | | |
|---------------------------------|---------------|---------------|--------------|--|--|--|
| | 1% Decrease | Discount Rate | 1% Increase | | | |
| | (6.25%) | (7.25%) | (8.25%) | | | |
| | | | | | | |

NOTES TO FINANCIAL STATEMENTS (Continued)

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan

Plan Administration

Police sworn personnel are covered by the Police Pension Plan which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contributions levels are governed by Illinois Compiled Statutes (Chapter 40 - Article 5/3) and may be amended only by the Illinois legislature. The Village accounts for the Police Pension Plan as a pension trust fund.

The plan is governed by a five-member pension board. Two members are appointed by the Village's President, one member is elected by pension beneficiaries, and two members are elected by active police employees.

Plan Membership

At December 31, 2019, the Police Pension Plan membership consisted of:

| Inactive plan members currently receiving benefits | 82 |
|--|-----|
| Inactive plan members entitled to but not yet receiving benefits | 9 |
| Active plan members | 82 |
| | |
| TOTAL | 173 |

Benefits Provided

The Police Pension Plan provides retirement benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

NOTES TO FINANCIAL STATEMENTS (Continued)

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Benefits Provided (Continued)

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the greater of the average monthly salary obtaining by dividing the total salary during the 48 consecutive months of service within the last of 60 months in which the total salary was the highest by the number of months in that period; or the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Police officers' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3% compounded. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% or ½ of the change in the Consumer Price Index for the preceding calendar year.

Contributions

Employees are required by ILCS to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fund 90% of the past service cost for the Police Pension Plan. However, the Village has decided to fund 100% of the past service cost by 2040. For the year ended December 31, 2019, the Village's contribution was 42.12% of covered payroll. The Village utilizes the entry-age normal actuarial cost method to fund the plan.

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Investment Policy

The Police Pension Fund's (the Fund) investment policy authorizes the Fund to invest in all investments allowed by ILCS. These include deposits/investments in insured commercial banks, savings and loan institutions, interest-bearing obligations of the U.S. Treasury and U.S. agencies, interest-bearing bonds of the State of Illinois or any county, township, or municipal corporation of the State of Illinois, direct obligations of the State of Israel, corporate bonds managed through an investment advisor and rated as investment grade by one of the two largest rating services at the time of purchase, money market mutual funds whose investments consist of obligations of the U.S. Treasury or U.S. agencies, separate accounts managed by life insurance companies, mutual funds, common and preferred stock, The Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller), and IMET, a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. The Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the state to pool their funds for investment purposes.

It is the policy of the Fund to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the cash flow demands of the Fund and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, risk aversion, rate of return, and liquidity.

The Fund's investment policy in accordance with ILCS establishes the following target allocation across asset classes:

| Asset Class | Target | Long-Term Expected Real Rate of Return |
|-----------------------------|--------|--|
| Fixed Income | 45.00% | 1.40% |
| Large Cap Domestic Equities | 38.50% | 6.20% |
| Small Cap Domestic Equities | 11.00% | 8.00% |
| International Equities | 5.50% | 6.90% |

NOTES TO FINANCIAL STATEMENTS (Continued)

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Investment Policy (Continued)

Asset class returns and risk premium data are from Morningstar Analyst Research Center - SBBI Data for the period December 31, 1925 through December 31, 2018. The International Equity equals the MSCI EAFE Index for the period December 31, 1969 through December 31, 2019. The long-term expected real rates of return are net of inflation and investment expense. Long-term returns for the asset classes are calculated on a geometric mean basis.

Investment Valuations

All investments are stated at fair value at December 31, 2019. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Investment Concentrations

Concentration of credit risk is the risk that the Fund has a high percentage of its investments invested in one type of investment. The Fund's investment policy requires diversification of investment to avoid unreasonable risk. No financial institution, except any securities custodians of the Fund, shall hold more than 10% of the Fund's portfolio at any time. Neither shall The Illinois Funds hold more than 10% of the Fund's portfolio at any time. In addition, the following allocations are desired: depository accounts and money market mutual funds at 1% to 5%, fixed income securities at 40% to 44%, and equity securities at 55%.

At December 31, 2019, there were no significant investments (other than United States Government guaranteed obligations or mutual funds) in any one organization that represent 5% or more of the Fund's investments.

Investment Rate of Return

For the year ended December 31, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 20.29%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Interest Rate Risk

The following table presents the investments and maturities of the Fund's debt securities as of December 31, 2019:

| | | Investment Maturities (in Years) | | | | | | |
|-------------------|--------|----------------------------------|----|-----------|----|-----------|-----------------|-----------------|
| | | | | Less | | | | Greater |
| Investment Type | Fair | · Value | | than 1 | | 1-5 | 6-10 | than 10 |
| | | | | | | | | |
| U.S. Treasury | \$ 3, | ,896,293 | \$ | 799,432 | \$ | 983,141 | \$ 2,113,720 | \$ - |
| U.S. agencies | 7, | ,571,206 | | 176,269 | | 531,206 | 1,071,432 | 5,792,299 |
| State, local, and | | | | | | | | |
| municipal bonds | 1. | ,463,899 | | 247,357 | | 211,167 | 520,428 | 484,947 |
| Corporate bonds | 10, | ,141,808 | | 645,029 | | 6,097,678 | 3,103,879 | 295,222 |
| _ | | | | | | | | |
| TOTAL | \$ 23, | ,073,206 | \$ | 1,868,087 | \$ | 7,823,192 | \$ 6,809,459 | \$ 6,572,468 |

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for all reasonably anticipated operating requirements while providing a reasonable rate of return based on the current market with a minimum return of 7% desired during a market cycle. In addition, no investment in a fixed income security shall have a maturity of greater than 30 years from the time of purchase.

The Fund has the following recurring fair value measurements as of December 31, 2019: the U.S. Treasury obligations and mutual funds were valued using quoted prices in active markets for identical assets (Level 1 inputs) and U.S. agency obligations; state, local, and municipal obligations, and corporate bond obligations were valued using quoted matrix pricing models (Level 2 inputs).

Credit Risk

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Fund's investment policy does not address the management of credit risk other than to limit investments to those allowed by state statutes. The U.S. Treasury and U.S. agencies, money market mutual funds, and The Illinois Funds are rated AAA. The state, local, and municipal bonds are rated AAA. The corporate bonds are rated BAA3 to AAA.

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Custodial Credit Risk - Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Fund's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third-party custodian and evidenced by safekeeping receipts. The Illinois Funds and money market mutual funds are not subject to custodial credit risk.

Net Pension Liability

The components of the net pension liability of the Police Pension Plan as of December 31, 2019 were as follows:

| | (a) | (b) | (a) - (b) |
|------------------------------|----------------|---------------|---------------|

EMPLOYEE RETIREMENT SYSTEMS (Continued) 12.

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Net Pension Liability (Continued)

There was also a change in assumption made since the prior measurement date to reflect revised expectations with respect to mortality rates.

See the schedule of changes in the employer's net pension liability and related ratios in the required supplementary information for additional information related to the funded status of the Fund.

Actuarial Assumptions

The total pension liability above was determined by an actuarial valuation performed as of December 31, 2019 using the following actuarial methods and assumptions.

| Actuarial valuation date | December 31, 2019 |
|-------------------------------------|----------------------|
| Actuarial cost method | Entry-age normal |
| Assumptions Inflation | 2.50% |
| Salary increases | 4.00% |
| Discount rate | 7.25% |
| Cost of living adjustments - Tier 1 | 3.00% |
| Cost of living adjustments - Tier 2 | 1.25% |
| Asset valuation method | Fair value of assets |

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Actuarial Assumptions (Continued)

Mortality rates for healthy individuals were based on the RP-2014 Mortality Table with a blue collar adjustment, with improvement scale MP-2019 applied generally from 2013. Mortality rates for disabled individuals were 115% of the health mortality table with improvement scale MP-2019 applied generally from 2013. The actuarial assumptions used in the December 31, 2019 valuation were based on the results of an actuarial experience study conducted by the Illinois Department of Insurance dated October 5, 2017.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Interest Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate of 7.25% as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

| | | Current | |
|-----------------------|-----------------------------|---------------|---------------|
| | 1% Decrease Discount Rate 1 | | 1% Increase |
| | (6.25%) | (7.25%) | (8.25%) |
| | _ | | _ |
| Net pension liability | \$ 62,681,538 | \$ 44,990,138 | \$ 30,641,164 |

NOTES TO FINANCIAL STATEMENTS (Continued)

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan

Plan Administration

Fire sworn personnel are covered by the Firefighters' Pension Plan which is a defined benefit single-employer pension plan. Although this is a single-employer pension plan, the defined benefits as well as the employee and employer contributions levels are mandated by Illinois Compiled Statutes (Chapter 40 - Article 5/4) and may be amended only by the Illinois legislature. The Village accounts for the Firefighters' Pension Plan as a pension trust fund.

The plan is governed by a five-member pension board. Two members are appointed by the Village's President, one member is elected by pension beneficiaries, and two members are elected by active firefighter employees.

Plan Membership

At December 31, 2019, the Firefighters' Pension Plan membership consisted of:

| Inactive plan members currently receiving benefits | 90 |
|--|-----|
| Inactive plan members entitled to but not yet receiving benefits | 2 |
| Active plan members | 73 |
| | |
| TOTAL | 165 |

Benefits Provided

The Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held at the date of retirement. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a covered employee who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

NOTES TO FINANCIAL STATEMENTS (Continued)

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Benefits Provided (Continued)

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the greater of (1) the average monthly salary obtained by dividing the total salary of the firefighter during the 48 consecutive months of service within the last of 60 months in which the total salary was the highest by the number of months in that period; or (2) the average monthly salary obtained during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Firefighters' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3% compounded annually. The annual benefit shall be increased by 2.50% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years may retire at or after age 50 and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 firefighter shall be increased annually at age 60 on the January 1st after the firefighter retires or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% or ½ of the change in the Consumer Price Index for the preceding calendar year.

Contributions

Covered employees are required to contribute 9.455% of their base salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to finance the Firefighters' Pension Plan as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fully fund the past service costs for the Firefighters' Pension Plan. However, the Village has decided to fund 100% of the past service cost by 2040. For the year ended December 31, 2019, the Village's contribution was 42.82% of covered payroll. The Village utilizes the entry-age normal actuarial cost method to fund the plan.

Investment Policy

The Firefighters' Pension Fund's (the Fund) investment policy authorizes the Fund to invest in all investments allowed by ILCS. These include deposits/investments in insured commercial banks, savings and loan institutions, interest-bearing obligations of the U.S. Treasury and U.S. agencies, interest-bearing bonds of the State of Illinois

Firefighters' Pension Plan (Continued)

Investment Policy (Continued)

or any county, township, or municipal corporation of the State of Illinois, direct obligations of the State of Israel, corporate bonds managed through an investment advisor and rated as investment grade by one of the two largest rating services at the time of purchase, money market mutual funds whose investments consist of obligations of the U.S. Treasury or U.S. agencies, separate accounts managed by life insurance companies, mutual funds, common and preferred stock, The Illinois Funds (created by the Illinois State Legislature under the control of the State Comptroller), and IMET, a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. The Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the state to pool their funds for investment purposes.

It is the policy of the Fund to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Fund and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, risk aversion, liquidity, and return on investment.

The Fund's investment policy in accordance with ILCS establishes the following target allocation across asset classes:

| Asset Class | Target | Long-Term Expected Real Rate of Return |
|------------------------|--------|--|
| U.S. Fixed Income | 35% | 2.50% |
| U.S. Equities | 40% | 7.50% |
| International Equities | 16% | 8.50% |
| Real Estate | 9% | 4.50% |

The long-term expected real rate of return is based on an arithmetic calculation that uses the GASB building block method. The arithmetic calculation was developed through an evaluation process overseen by the Andco Consulting Investment Policy Committee.

Firefighters' Pension Plan (Continued)

Investment Valuations

All investments are stated at fair value at December 31, 2019. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Concentrations

Concentration of credit risk is the risk that the Fund has a high percentage of its investments invested in one type of investment. The Fund's investment policy requires diversification of investment to avoid unreasonable risk. No financial institution, except any securities custodians and fixed income investment managers of the Fund, shall hold more than 10% of the Fund's portfolio at any time. Neither shall The Illinois Funds hold more than 10% of the Fund's portfolio at any time. In addition, the following allocations are desired: depository accounts and money market mutual funds at 1% to 5%, fixed income securities at 50% to 54%, and 55% in equity securities.

At December 31, 2019, there were no significant investments (other than United States Government guaranteed obligations) in any one organization that represent 5% or more of the Fund's investments.

Rate of Return

For the year ended December 31, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 16.52%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Custodial Credit Risk - Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the Fund's deposits may not be returned to it. The Fund's investment policy requires pledging of collateral for all bank balances in excess of federal depository insurance, at an amount not less than 110% of the fair market value of the funds secured, with the collateral held by an independent third party or the Federal Reserve Bank, and evidenced by safekeeping receipts.

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Interest Rate Risk

The following table presents the investments and maturities of the Fund's debt securities as of December 31, 2019:

| | | Investment Maturities (in Years) | | | |
|------------------|------------------|----------------------------------|--------------|--------------|-----------|
| | _ | Less | | | Greater |
| Investment Type | Fair Value | than 1 | 1-5 | 6-10 | than 10 |
| | | | | | |
| U.S. Treasury | \$ 4,839,489 \$ | 577,688 \$ | 2,122,784 \$ | 2,139,017 \$ | - |
| U.S. agencies | 10,860,945 | 131,322 | 1,254,954 | 1,955,374 | 7,519,295 |
| State, local and | | | | | |
| municipal bonds | 559,656 | 206,300 | 300,216 | 53,140 | - |
| Corporate bonds | 8,691,876 | 715,218 | 5,251,061 | 2,618,655 | 106,942 |
| | | | | | |
| TOTAL | \$ 24,951,966 \$ | 1,630,528 \$ | 8,929,015 \$ | 6,766,186 \$ | 7,626,237 |

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for all reasonably anticipated operating requirements while providing a reasonable rate of return based on the current market with a minimum return of 7% desired during a market cycle. In addition, no investment in a fixed income security shall have a maturity of greater than 30 years from the time of purchase.

The Fund has the following recurring fair value measurements as of December 31, 2019: the U.S. Treasury obligations and mutual funds were valued using quoted prices in active markets for identical assets (Level 1 inputs); and U.S. agency obligations, state, local, and municipal obligations, corporate bond obligations, and investments in real estate pools were valued using quoted matrix pricing models (Level 2 inputs).

Credit Risk

Credit risk is the risk that the issuer of a debt security will not pay its par value upon maturity. The Fund's investment policy does not address the management of credit risk other than to limit investments to those allowed by state statutes. The U.S. Treasury and U.S. agencies, money market mutual funds, and The Illinois Funds are rated AAA. The state, local, and municipal bonds are rated AAA to AAA. The corporate bonds are rated Ba1 to AAA.

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Custodial Credit Risk - Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Fund's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third-party custodian and evidenced by safekeeping receipts. The Illinois Funds and money market mutual funds are not subject to custodial credit risk.

Net Pension Liability

The components of the net pension liability of the Firefighters' Pension Plan as of December 31, 2019 were as follows:

| | (a) | (b) | (a) - (b) |
|------------------------------|----------------|---------------|---------------|
| | Total | Plan | Net |
| | Pension | Fiduciary | Pension |
| | Liability | Net Position | Liability |

Firefighters' Pension Plan (Continued)

Net Pension Liability (Continued)

See the schedule of changes in the employer's net pension liability and related ratios in the required supplementary information for additional information related to the funded status of the Fund.

Actuarial Assumptions

The total pension liability above was determined by an actuarial valuation performed as of December 31, 2019 using the following actuarial methods and assumptions.

| Actuarial valuation date | December 31, 2019 |
|-------------------------------------|----------------------|
| Actuarial cost method | Entry-age normal |
| Assumptions Inflation | 2.50% |
| Salary increases | 4.00% |
| Discount rate | 7.25% |
| Cost of living adjustments - Tier 1 | 3.00% |
| Cost of living adjustments - Tier 2 | 1.25% |
| Asset valuation method | Fair value of assets |

Mortality rates for healthy individuals were based on the RP-2014 Mortality Table with a blue collar adjustment, with improvement scale MP-2019 applied generationally from 2013. Mortality rates for disabled individuals were based on the RP-2004 Disabled Mortality Table, with improvement scale MP-2019 applied generationally from 2013. An actuarial experience study was provided October 5, 2017 to the Department of Insurance reflecting experience for the years 2011 - 2016 from numerous Funds valued by the Department of Insurance, including the Village.

NOTES TO FINANCIAL STATEMENTS (Continued)

12. EMPLOYEE RETIREMENT SYSTEMS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Interest Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate of 7.25% as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

| | | Current | |
|-----------------------|---------------|---------------|---------------|
| | 1% Decrease | Discount Rate | 1% Increase |
| | (6.25%) | (7.25%) | (8.25%) |
| Net pension liability | \$ 52,667,305 | \$ 38,460,088 | \$ 26,785,115 |

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended December 31, 2019, the Village recognized firefighter's pension expense of \$4,908,714.

At December 31, 2019, the Village reported deferred outflows of resources and deferred inflows of resources related to the firefighter's pension from the following sources:

| | O | Deferred outflows of Resources | Deferred Inflows of Resources |
|---|----|--------------------------------------|-------------------------------------|
| Difference between expected and actual experience Changes in assumptions Net difference between projected and actual earnings | \$ | 1,090,851 1,687,817 | \$ 2,250,434 615,991 |
| on pension plan investments TOTAL | \$ | 2,778,668 | \$ 3,043,479 5,909,904 |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to the firefighter's pension will be recognized in pension expense as follows:

| Year Ending | |
|--------------|----------------|
| December 31, | |
| | |
| 2020 | \$ 85,014 |
| 2021 | (1,282,406) |
| 2022 | (253,555) |
| 2023 | (1,426,737) |
| 2024 | (253,552) |
| Thereafter | |
| | |
| TOTAL | \$ (3,131,236) |

b. Defined Contribution Pension Plans

The Village provides a voluntary retirement benefit for all of its full-time employees through a defined contribution plan, which is administered by the Plan Administrator. Benefits depend solely on amounts contributed to the Plan plus investment earnings. All the Village employees are eligible to participate from the date of employment and the Village provides a platform for employees to participate and invest. Employees are fully vested immediately and there are no forfeitures executed by the Village. The Village does not contribute any amounts to the defined contribution plans except for two employees. For one of the two employees, the Village contributes 5% of the salary to the defined contribution plan and for the other employee, the Village contributes 9.91% of the Gross Salary to a 401(a) plan. Employees can voluntarily contribute any dollar amount up to the IRS respective annual limit. The Board of Trustees amended the by-laws of the Plan effective January 1, 2011. The Village contributed \$11,179 to the Deferred Compensation Plan 457(b) and \$16,472 to the 401(a) Plan during the year ended December 31, 2019.

13. SUBSEQUENT EVENTS

Beginning around March 2020, the Covid-19 virus has been declared a global pandemic as it continues to spread rapidly. As a result, equity investments of the Police Pension Plan and Firefighters Pension Plan have experienced significant declines in quoted prices on active markets. Management of both plans are carefully monitoring the situation and evaluating its options during this time. No adjustments have been made to these financial statements as a result of this uncertainty.

14. PRIOR PERIOD ADJUSTMENT

The beginning net position of governmental activities was restated by \$(716,467) to properly reflect the balance of the business district limited tax note payable.

Notes to Required Supplementary Information

Year Ended December 31, 2019 - There were changes in assumptions related to the mortality rates from December 31, 2018. In addition, there were changes in plan benefits required under PA-101-0610 (SB 1300).

Year Ended December 31, 2018 - There were changes in assumptions related to the mortality rates from December 31, 2017.

Year Ended December 31, 2017 - There were changes in assumptions related to the mortality rates from December 31, 2016.

Year Ended December 31, 2016 - There was a change in assumption related to the discount rate made since the prior measurement date. The discount rate used in the current actuarial valuation, dated December 31, 2016, is 7.25%. The discount rate used in the prior actuarial valuation, dated December 31, 2015, was 7.50%. There was also a change in assumption related to the projected rate for annual pay increases made since the prior measurement date. The projected rate for annual pay increases used in the current actuarial valuation, dated December 31, 2016, is 4.00%. The projected rate for annual pay increases used in the prior actuarial valuation, dated December 31, 2015, was 5.00%. There was also a change in assumption made since the prior measurement date to reflect revised expectations with respect to mortality rates.

Year Ended December 31, 2015 - There was a change with respect to the actuarial assumptions from the prior year to reflect revised expectations with respect to mortality rates, turnover rates, and retirement rates.

Year Ended December 31, 2014 - There was a change with respect to the actuarial assumptions from the prior year to reflect revised expectations with respect to mortality rates, turnover rates, and retirement rates.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2019

BUDGETS

All departments of the Village submit requests for appropriation to the Village Manager so that a budget may be prepared. The budget is prepared by fund and includes information on the past year, current year estimates, and requested appropriations for the next fiscal year. Budgets are adopted on a basis consistent with GAAP. Annual appropriated budgets are adopted for the General, Special Revenue, Debt Service, Capital Projects, Enterprise, Internal Service, and Pension Trust Funds. All annual appropriations lapse at fiscal year end.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget.

The Village Manager is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the governing body. Expenditures may not legally exceed budgeted appropriations at the fund level. During the year, budget amendments were approved by the Village Board of Trustees. The budget figures included in this report reflect all budget amendments made during the year.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

MAJOR GOVERNMENTAL FUNDS

GENERAL FUND

General Fund - to account for all financial resources of the general government, except those accounted for in another fund.

SPECIAL REVENUE FUND

The Prospect/Main TIF Fund - to account for the resources to acquire property and construct certain improvements in the Prospect/Main Tax Incremental Financing District. Financing is being provided by incremental property taxes, general obligation bond proceeds, and investment income.

DEBT SERVICE FUND

Debt Service Fund - to accumulate monies for payment of principal and interest on general obligation bonds, IEPA loans, and installment notes.

CAPITAL PROJECTS FUND

Police and Fire Building Construction Fund - to account for the resources to construct the police and fire building.

NONMAJOR GOVERNMENTAL FUNDS

NONMAJOR SPECIAL REVENUE FUNDS

Motor Fuel Tax Fund - to account for the activities involved with street maintenance and construction. Financing is provided by the Village's share of state gasoline taxes. State law requires these gasoline taxes to be used to maintain streets.

The Refuse Disposal Fund - to account for the revenues and expenditures associated with providing solid waste collection services. Financing provided by restricted user fees and recycling income.

Community Development Block Grant (CDBG) Fund - to account for the revenue and expenditures associated with the CDBG. The grant is provided by the U.S. Department of Housing and Urban Development to develop urban communities by expanding economic opportunities and providing decent housing and a suitable living environment. The beneficiaries of CDBG must be individuals with low and/or moderate incomes.

Asset Seizure Fund - to account for the revenues and expenditures associated with the asset seizure program in which the Village participates. Funds received are restricted for use in the fight against drugs.

Federal Equitable Share Fund - to account for the revenues and expenditures associated with the Federal Shared Funds Program. The use of funds is restricted for use in the fight against drugs.

DUI Fines Fund - to account for revenues and expenditures associated with the Cook County DUI fine program. Use of the funds is restricted to the fight against drunk driving.

Foreign Fire Insurance Fund - to account for revenues derived from the Foreign Fire Insurance Tax and disbursement of these funds for the benefit, use, and maintenance related to the Fire Department.

Business District Fund - to account for the revenues and expenditures associated with the Business Districts within the Village. The Village currently has one Business District, the Randhurst Village Business District Area.

NONMAJOR GOVERNMENTAL FUNDS (Continued)

NONMAJOR CAPITAL PROJECTS FUNDS

Capital Improvement Fund - to account for the resources to provide for certain capital improvements and the replacement of village equipment. Financing is being provided by home rule sales tax, developer contributions, transfers from other funds, and investment income.

Flood Control Construction Fund - to account for the resources to implement flood control projects throughout the Village. Financing is provided by home rule sales taxes, service charges, and investment income.

Street Improvement Construction Fund - to account for the resources to reconstruct the Village's streets. Financing is provided by various taxes, licenses, permits, fees, and investment income.

Note: Property in the Village is reassessed each year. Property is assessed at 33% of actual value.

Other Information from Statement:

The Statement requires that the information in this schedule be shown for each period for which levied and should be consistent with the periods shown in the schedule of direct and overlapping revenue rates and schedule of direct and overlapping property tax rates. Therefore, most Illinois governments should disclose this by the tax levy year, not the fiscal year.

- (1) The Village entered into five installment contracts with the Illinois Environmental Protection Agency to provide funds for the construction of flood control projects. The contracts are for a 20-year period with equal semiannual installments. Only one of the five original loans remain outstanding.
- (2) The Village entered into an installment note to provide funding for the construction of certain flood control projects. The loan is payable in annual installments over a seven-year period.

Note: Details of the Village's outstanding debt can be found in the notes to financial statements.

| | \$ 6,037,598,300 | | \$ | 224,253,830 |

- (1) Gross bonded debt excluding outstanding general obligation (alternate revenue bonds) which are expected to be paid from sources other then general taxation.
- (2) Determined by ratio of 2018 assessed value of property subject to taxation in overlapping unit to value of property subject to taxation in the Village.
- (3) Amount in column (2) multiplied by amount in column (1).

Data Source

Governmental units and the percentage of overlapping debt from the County Clerk's office. Gross debt of the overlapping governmental units obtained from CAFR's on file with the Cook County Treasurer's Office.

SCHEDULE OF LEGAL DEBT MARGIN

December 31, 2019

The Village is a home rule municipality.

Article VII, Section 6(k) of the 1970 Illinois Constitution governs computation of the legal debt

The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property. . . (2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent: . . . indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum....shall not be included in the foregoing percentage amounts.

To date the General Assembly has set no limits for home rule municipalities. The government is a home rule municipality.

Notes: 1. The Village is a home rule unit under the 1970 Illinois Constitution and as such has no debt limit, nor is it required to seek referendum approval for the issuance of general obligation debt. The Village has used alternative revenue sources including Home-rule sales tax, water/sewer charges etc. to perform the debt service for certain bonds. The Village abates the property taxes for the bonds paid with the alternative revenue sources.

Notes:

- 1. Information in table pulled from applicable Official Statements.
- 2. Excludes the Village's general obligation bonds which are payable from non-property taxes.
- 3. Village population estimates used in these calculations were 56,265 in 2001-2009, and 54,167 beginning in 2010.

Notes:

- 1. Property in Cook County is separated into two primary classifications for assessment purposes (10% for residential and 25% for commercial property). After the assessor establishes the fair market value of a parcel of land, the value is multiplied by one of the classification percentages to arrive at the assessed valuation for that parcel. The Illinois Department of Revenue furnishes each county with an adjustment factor (the equalization factor) to equalize the level of assessment between counties. After the equalization factor is applied, the valuation of the property for taxing purposes has been established—tax rates are applied to the equalized valuation.
- Under the current triennial reassessment system in Cook County, the Village was most recently reassessed in 2019. The new equalized assessed values are expected to be available during mid-2020. The EAV is expected to go up by 15 percent or more.

- 3. Excludes four categories of exemptions: the Senior Citizens' Homestead Exemption; the General Homestead Exemption; the Senior Citizens' Tax Freeze Homestead Exemption and the Long-Term Homeowner Exemption.
- 4. The Village's tax rate is calculated based on the village's Net Equalized Assessed Valuation (shown in this table as "Net for General Taxing Purposes") and is extended against its entire Equalized Assessed Valuation (shown in this table as "Total for all Taxing Purposes") excluding only the statuary exemptions. Of the taxes collected, that portion applicable to incremental valuation (valuation of tax increment districts) is remitted to the Village by the County Collector for deposit in the applicable tax allocation fund. The Equalized Assessed Valuation for which the Village receives its portion of the total tax rate for all non-TIF purposes is shown in this table as "Net for General Taxing Purposes".

Notes:

2018

2019

1. Source: Cook County Treasurer's Office. Tax payments, including late payments and proceeds from tax sales, are shown as collections in the year when due. The "Amount Collected" is not the same as distributions to the Village because tax refunds (pursuant to court orders, first time homestead exemptions other exemptions, etc.) are deducted from "Amount Collected" and interest earnings are added to "Amount Collected" in calculating the distributions.

18,710,515

98.02%

2. Cook County property taxes are payable in two installments: the first on March 1, and the second on the latter of August 1 or 30 days after the mailing of the tax bills. The first installment is an estimated bill and is 55% of the prior year's bill. The second installment is based on the current levy, assessment and equalization and reflects any changes from the prior year in those factors.

Notes: 1. This condensed financial information for the years ending December 31, 2015-2019 has been excerpted from the full Comprehensive Annual Financial Reports of the Village. The accounting policies of the Village conform to GAAP and are disclosed in the audited financial statements. A summary of some of the policies are: The General Fund is accounted for using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available as net current assets. Expenditures are generally recognized when the related fund liability is incurred.

⁺ Starting year 2019 Other Fiduciary Funds are merged with General Fund

Notes: 1. This condensed financial information for the years ending December 31, 2015-2019 has been excerpted from the full Comprehensive Annual Financial Reports of the Village. The accounting policies of the village conform to GAAP and are disclosed in the audited financial statements. A summary of some of the policies are: All Governmental Funds are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available as net current assets; expenditures are recognized when the related fund liability is incurred. All Proprietary Funds and Pension Trust Funds are accounted for using the accrual basis of accounting. The Village's Comprehensive Annual Financial Report for the year ended December 31, 2019 included an unmodified "Independent Auditor's Report". Similar unqualified/unmodified opinions were included in the Village's Comprehensive Annual Financial Reports for the years ending December 31, 2015-2018. The "Independent Auditor's Report" included in the latest audit states, in part:

"In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Mount Prospect, Illinois, as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America."

- 2. The Village's property tax revenue recognition policy conforms to the provisions of "NCGA Interpretation 3, Revenue Recognition Property Taxes." The current net tax levy receivable is recognized in the balance sheet along with a corresponding amount of deferred revenue. In addition, the debt service payments and liabilities related to the current net tax levy are not reflected in the Debt Service Funds; the un-matured principal is reflected in the General Long-Term Debt Account Group.
- Includes the Capital Improvement Fund, which accounts for the resources used to provide for mid-sized capital projects. Financing is provided by one-quarter cent home rule sales tax, developer contributions, interfund transfers, investment income, and bond proceeds.
- 4. Fund balances shown for the Enterprise Funds are total fund equity, including contributed capital and retained earnings, and the column "Revenue Over Expenditures" represents the change in that amount.
- 5. The Village has created a new Police and Fire Building Construction fund during the year 2018. This fund is created to account for bond proceeds and construction cost associated with new Police and Fire buildings.

- 6. The Village created a Risk Management Fund in 1984 to account for the servicing and payment of claims for liability, property, casualty coverage and Workers' Compensation. Financing is provided by charges to the various Village funds. The Village created a Vehicle Replacement Fund in fiscal year 1991 to account for the acquisition and depreciation of Village vehicles. Financing is provided by charges to the General, Water and Sewer, and Parking Funds. The Village created a Vehicle Maintenance Fund in 1996 to account for maintenance and repair of all Village vehicles except Fire Department vehicles. In 1997, the Village created a Computer Replacement Fund to account for the acquisition and depreciation of Village computer hardware.
- 7. Excludes agency funds.

Note: Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, storm sewers, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost of more than \$20,000, except for infrastructure for which the cost is \$50,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.
