

Resident Information Bulletin

Schoenbeck Road Resurfacing & Lighting Project

Village of Mount Prospect
Public Works Department
August 2023

INTRODUCTION

The Village of Mount Prospect would like to inform you of plans to resurface and add street lighting to Schoenbeck Road. The Village has received a grant from the Surface Transportation Program to replace the asphalt pavement on Schoenbeck Road from Rand Road to Camp McDonald Road. Work will include replacing damaged and deteriorated curb but will not include road widening. Sidewalk will be added to the west side of the road and connect to the sidewalk systems on both Rand Road and Camp McDonald Road. Finally, as part of a separate contract, the Village plans to add street lighting along the east side of Schoenbeck Road. The street lights will be silver aluminum poles with LED luminaires, similar to the one on Schoenbeck Road just south of Camp McDonald Road, and spaced approximately 250' apart.

OPEN HOUSE

The Village is hosting an in-person public information meeting to learn more about the project and share your thoughts. The meeting will take place on Thursday, August 24th, from 4:30pm – 6:30pm at the Prospect Heights Public Library located at 12 N. Elm Street. The meeting will be conducted in an open house format so feel free to stop by anytime during the two-hour period. The purpose of the meeting is to view the preliminary plans and solicit input from the public. Staff will be available to provide information and answer your questions.

TENTATIVE SCHEDULE

The Village has awarded an engineering contract to Engineering Resource Associates, Inc. to develop engineering plans for the resurfacing project and provide coordination with the Illinois Department of Transportation and Cook County Highway Department. The preliminary engineering phase is expected to be completed by the end of 2023 with the design engineering phase completed by the end of 2024. Construction is expected to start in the spring of 2025 with completion by the end of 2025.

Street lighting work is being done as part of a separate contract in advance of the resurfacing project. Construction is expected to start later this fall with completion in the spring of 2024.

PROJECT INFORMATION

Additional information on the project, including preliminary plans, can be found on the Village web site at www.mountprospect.org under Departments, Public Works, Village Infrastructure Projects, Roadway Improvement Projects, Schoenbeck Road Resurfacing & Lighting. You can also use the QR code.
