### **Did You Know?**

In 2021, the Police Department created the George Whittenberg Award. The award is named after one of the department's first Chiefs. Chief Whittenberg was a very active member of the Mount Prospect community both on and off-duty.

The George Whittenberg Award reflects this community dedication. Department members who demonstrate exemplary service to the community and go above and beyond their duty assignments are eligible for this award. The 2021 George Whittenberg

Award Recipient was Officer Steve Sparr

### **Patrol Beats**

The Village of Mount Prospect is divided into 6 patrol beats. In 2016, permanent beat assignments were created to better serve the community. All officers are assigned a shift and beat for the entire calendar year. Each beat has a sergeant who is responsible for an entire beat as the beat coordinator.

### Illinois Law Enforcement Accreditation Program

TOTAL POLICE TO A POLICE TO A

ILEAP is an accreditation obtained through the Illinois Association of Chiefs of Police. The accreditation process requires law enforcement agencies to evaluate policy and procedure against established criteria, and have compliance with those criteria verified by an independent and authoritative body, The Illinois Law Enforcement Accreditation Council. The criteria, or standards, are policy development guidelines that represent a level of quality service delivery. The Mount Prospect Police Department has been an ILEAP Accreditated Agency since 2018.

### **MPPD Transition from UCR to NIBRS**

In accordance with the national shift in crime collection data and reporting, the Mount Prospect Police Department made the transition from UCR (Uniform Crime Reporting) to NIBRS, the National Incident Based Report System. The vision is for NIBRS to become the law enforcement community's standard for quantifying crime, further supporting the original mission of the FBI UCR Program. This data will be used to generate reliable information for use in law enforcement administration, operation, and management.

NIBRS compiles detailed reports on two types offenses: Group A offenses and Group B offenses. The two groupings are based on the amount of reporting required for each. Both incidents and arrests are reported for Group A offenses, while only arrests are reported for Group B offenses.

**Group "A" offenses are categorized into one of the three following categories:** 

- 1) Crimes Against Persons;
- 2) Crimes Against Property;
- 3) Crimes Against Society.

**Crimes Against Persons = Scores one offense for each victim** 

Crimes Against Property = Scores one offense for each distinct operation (except Motor Vehicle Theft / one offense is counted per stolen vehicle)

**Crime Against Society = Scores one offense for each violation** 

Due to the greater level of reporting specificity in NIBRS-it can initially appear that an agency has higher levels of crime after switching to NIBRS. For example: under Crimes Against Persons, NIBRS counts the number of victims, while UCR counts the number of incidents.

Consequentially, NIBRS figures tend to show more Crimes Against Persons than UCR figures due to the manner in which the count takes place, as described above. While it may appear like the amount of crime has risen its really a reflection of the different manner in how it is counted (various crimes committed within a single incident) has changed.

A Robbery where a Murder occurred under UCR would be report as only a Murder. Now, with NIBRS reporting, the Robbery where a Murder occurred would be reported as a Robbery and a Murder.
