

## PROJECT UPDATE

Thank you very much for your patience and cooperation throughout the duration of this extremely crucial water infrastructure project. This notice is to provide you with an update on the next steps. The contractor will be connecting the 30" water main to the north side of the meter vault located at the corner of Elmhurst Avenue and Highland Street during the week of May 28, 2024. They will also be completing some storm sewer repairs during this week. This will be the last of the underground work for several weeks.

The final connection on the north side of Kensington Road and Elmhurst Avenue is not scheduled to take place until early July due to material delays. However, between now and then, the contractor will be restoring the areas disturbed by the construction. Below is the tentative restoration schedule.

## TENTATIVE SCHEDULE OF THE WORK

- Week of June 3, 2024
  - Begin prepping for restoration, including replacement of damaged concrete curb and sidewalk.
- Week of June 10, 2024
  - Begin restoration of the asphalt. This only includes the trench; the entire street is scheduled to be ground and resurfaced from curb to curb at a later date.
- Week of June 17, 2024
  - Restoration of the disturbed landscaping will take place.

We will continue to update the project's website with additional information or any changes to this schedule. The link to the project's website is below.

<https://www.mountprospect.org/departments/public-works/water-sewer/emergency-water-system-interconnection>

## WILL SERVICES TO MY PROPERTY BE AFFECTED?

Regular services such as garbage pick-up, mail delivery, or emergency services from the Police or Fire Departments are expected to continue during construction. However, there may be times when construction activities temporarily restrict access to your property as the new water main is installed. We will try to make accommodations to keep these interruptions as short as possible. If a new curb or sidewalk is to be installed in front of your property, access to your driveway will be interrupted for an extended period. In that case, you will receive more specific information about the schedule for this work and how it affects your driveway access.

## HOW WILL MY WATER SERVICE BE AFFECTED?

There are currently no planned disruptions for water service, as this project does not include service transfer. However, should that change and the work on-site impact water service, you will be notified, and instructions will follow after the connection.

### HOW CAN I GET MORE INFORMATION?

Call the Public Works Department (847) 870-5640 or email to [publicworksdept@mountprospect.org](mailto:publicworksdept@mountprospect.org).
